General sales conditions

The prices shown are always and only for single units (excluding VAT) in Euro.

DELIVERY TERMS
The goods are quoted on FCA (free carrier) Incoterms San Vendemiano (TV) Italy or on DAP (delivered at place) Incoterms with charge of shipping costs.
The delivery terms are meant truck side, with cardboard packaging and by standard means of transport. Unpacking, assembly and packaging disposal are excluded.
The request for delivery on appointment must always be mentioned when ordering.
The delivery to final users, city centres or uncomfortable places must be agreed with Kastel before the order confirmation and will be charged at cost.
Extra services such as tail lift, porterage and transport to the floor, deliveries on pallets must always be agreed when ordering and will be charged at cost.

DELIVERY TIME
For standard quantities, finishes and upholsteries the average order production time is 3/4 weeks, August and Christmas time excluded.
The date indicated on the order confirmation is always indicative and it refers to the date in which the goods are ready for collection.
In case of advance payment at order confirmation, the delivery time starts from the payment receipt required in the proforma invoice/ offer.
In case of orders received incomplete or that need to be clarified, the delivery time starts from the moment when the entire order is defined.
In case of items upholstered with COM fabric, the delivery time starts from the fabric receipt and feasibility confirmation.
In case of inquiries for special upholsteries or finishes out of our samples card, outsized frames and other requests the delivery time could be longer.

PACKING AND ASSEMBLY
The goods are delivered packed with corrugate cardboard suitable for transport by truck and internally protected with nylon.
The cartons must always be handled by keeping the "high" side indicated on the carton.
The weights and volumes indicated in the price list are indicative data, Kastel reserves the right at every time to change the packaging based on a better optimization of the spaces of the goods inside its packaging.
Kastel products are shipped pre-assembled in most cases. The swivel armchairs are usually shipped with the bases to be assembled, the mounting is done by means of conical and pressure coupling.
Some models of sofas and tables need to be assembled with screws included in the supply kit. Assembly instructions are inside the packaging.

COMPLAINTS AND RETURNS
All complaints are accepted at goods receipt, in the presence of the consignee and reported on the courier's delivery note only. Claims related to defect or damage are accepted within 8 days from the goods receipt and in any case prior to use.
Unauthorized returns are not accepted.

COM (CUSTOMER'S OWN MATERIAL) - COL (CUSTOMER'S OWN LEATHER)
COM and COL orders have to be confirmed and approved by Kastel and delivered DAP Kastel warehouse with a delivery note where customer and order references are mentioned.
The reference price is in cat. "A".
As regards "COM" Customer's Own Material (fabric), the quantity mentioned in the price list is expressed in linear meters and by considering width 140 cm.
As concerns "COL" Customer's Own Leather, the quantity mentioned in the price list is expressed in square meters. The leather must be supplied without defects, holes or fold that could affect the final result of the upholstery.
The footage mentioned in the price list has to be considered for 1 piece.
For different quantities you are kindly requested to send an inquiry for the total footage needed.

WARRANTY
Kastel tests all the models and guarantees their quality and good manufacture.
The warranty covers defects and breaks of all mechanical parts for 5 years with proper use of the product (see the instructions for use).
The polypropylene shells are guaranteed for 24 months, as long as the product is used properly. Upholsteries are not included in the warranty.
Replacements and repairs can be agreed by sending the spare part or by returning the product properly packed to our factory in a way to be agreed upon.
Any transport and redelivery costs are to be paid by the customer only after 2 years from the sale.
The warranty is valid by providing the product identification data mentioned on the tag under the seat or, if these are not available, by specifying the model and the purchase document.
Different conditions may apply for supplies of certified models.
Instructions for use available on our website www.kastel.com

PRODUCTION CHANGES
Kastel reserves the right to modify the measures or to make changes at any time if it deems necessary, without affecting the functionality and basic aesthetics. Slight differences in colour shades in upholsteries, compared to those in the standard sample cards, or in product measures, cannot give rise to requests for replacements.

OWNERSHIP OF THE GOODS
The goods remain Kastel property until full payment is received.

PLACE OF JURISDICTION
In case of disputes, the Court of Treviso shall have exclusive jurisdiction.

Instructions for use

- If the padding or the upholstery show defects, fluff them up to restore the original shape.
- Handle with particular care all products with column as they are fixed with a conical coupling.
- Avoid improper use
- Do not seat on the armrests or on the back of the chairs or sofas.
- Do not seat by wearing wet or abrasive dresses.
- Do not use solvents or abrasive cleaners.
- Make sure to keep upholstered material out of direct sunlight or heaters.
- Ecology: avoid release to the environment after use, carry out disposal depending on the type of material and refer to qualified personnel.

Care and maintenance

FABRICS
Vacuum or dust regularly. Wipe excess liquid immediately with a clean smooth cloth or a wet sponge. The fabrics can be superficially sanitized with solutions of water and 70% ethyl alcohol and commercial disinfectant products ready for use. We suggest to test the product on a small hidden corner of the surface you need to clean. Light colours should not be put in contact with fabrics or clothes treated with unbound dyes, this to avoid stains and marks of dyes that could not be cleaned.

GENUINE LEATHER
Leather is a natural product that preserves aspects deriving from its origin even after its processing.
Any scars, streaks, wrinkles, different shades and luster are not to be considered defects but features proving the natural origin of the product. Wipe with a white damp cloth. Wipe excess liquid immediately with a white sponge, dabbing lightly with a damp cloth. Do not rub hard. In case of stubborn spots and stains use specific leather cleaning products only.

POLYPROPYLENE AND POLYCARBONATE
Vacuum and dust regularly. Stains can be cleaned with a soft cloth soaked in mild detergent and warm water.

PAINTED METAL AND ALUMINIUM
Wash painted metal finishes with a soft cloth, soaked in warm water and a mild non-abrasive soap. Rinse thoroughly and dry. Scuff marks can be removed using a pre-softened paste wax.

Upholsteries

GENERAL WARNINGS

The images are indicative. It is recommended to consult the upholsteries and finishes cards with the actual samples. Slight color and tone variations may result from the production process of the material. Light colors must not be brought into contact with fabrics and clothing treated with unfixed dyes, or with poor dye fastness, in order to avoid stains. Coated fabrics (eco-leather) can be superficially sanitized with solutions of water and 70% ethyl alcohol and commercial disinfectant products ready for use. It is recommended to test the product on a hidden corner of the surface to clean. We focus your attention on special antimicrobial, antibacterial and antifungal treatments which distinguish some of our coatings, that create an effective defensive barrier against bacteria, mites and fungi, combined with exceptional features of practicality and durability over time.

GENERAL WARNINGS

The images are indicative. It is always recommended to consult the upholsteries and finishes swatch cards with actual samples.
Products made with recycled material (PSV – Second Life Plastic) may have slight color variations or surface imperfections which should be considered intrinsic features of the process and a guarantee of the real use of recycled material.

Swivel and stackable fixed polypropylene chairs

Chair with polypropylene injection molded monocoque shell. Upholstered versions with polypropylene inside shell and padding made of non-deformable expanded polyurethane. Polypropylene clips allow the fixing of the shell to the frame. Fixed or swivel steel frames, either with articulated and adjustable nylon or steel feet or with swivel castors. Versions with 5-star polypropylene or aluminium base on swivel castors. Fixed 4-leg frame made of painted maple wood with felt glides and steel supporting structure. Version with antipanic nylon writing tablet.

Kicca

Multipurpose chair

Chair with polypropylene injection molded monocoque shell. Upholstered versions with polypropylene inside shell and padding made of expanded non-deformable polyurethane. Polypropylene clips allow the fixing of the shell to the frame. Fixed or swivel steel frames, either with articulated and adjustable nylon or steel feet or with swivel castors. Fixed 4-leg frame made of painted maple wood with felt glides and steel supporting structure. Versions with 5-star polypropylene or aluminium base on pivoting castors.

Karma

Task and managerial ergonomic chair

Task chair with seat in rigid polypropylene and padding in non-deformable expanded polyurethane. Backrest structure in rigid polypropylene, covering in polyester mesh or with padding in non-deformable expanded polyurethane. Lumbar support in polypropylene, headrest in polypropylene padded with polyurethane. Nylon armrests, adjustable versions with soft polyurethane pad or in aluminium on swivel castors. Mechanisms with steel body, cover and control levers in technopolymer.

Karma

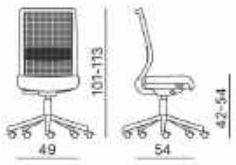
TYPES

Mesh backrest

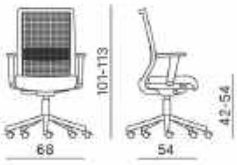
Black padded rear backrest

Padded backrest - front and backside

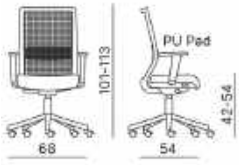
KARMA MESH
PADDED SEAT AND MESH BACKREST



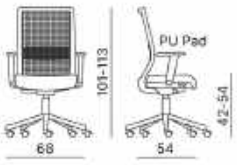
Without arms



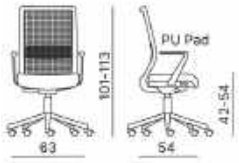
Black nylon arms



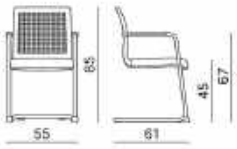
2D adjustable extensible soft touch black arms



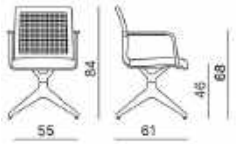
4D adjustable rotating extensible black arms with stretchable soft touch top arm



Polished aluminium arms with black polyurethane soft touch top arm

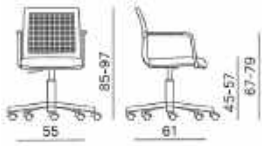


Sled frame with arms
Black painted or chromed



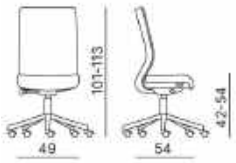
Swivel with 4 black nylon legs

Swivel with 4 polished aluminium legs



Swivel 5-star base with castors
With black or chromed arms, with gaslift or gaslift with tilt (L)

KARMA PADDED
PADDED SEAT AND BACKREST



Without arms

Korium Mesh

Task and managerial ergonomic chair

Task chair with seat in beech-poplar plywood and padding in cold-foamed expanded polyurethane. Backrest frame in flexible polyester PETG with brass fixing connections. Supporting mesh in polyester. Backrest support in painted steel with polypropylene cover. Lumbar support in integral polyurethane polyurethane. Armrests in steel with upper injection of integral expanded polyurethane and steel side edge, in die-cast polished aluminium and arm pad in multilayer and expanded polyurethane padding, and in nylon with soft polyurethane pad. Mechanisms with steel body, cover and control levers in technopolymer or fixed steel plate with lever. Bases in polypropylene or aluminium on swivel castors. Versions with fixed frame made of tubular steel with black polyurethane arm pads.

kastel®
Comfort and design

Executive chairs

Office

Executive chairs and armchairs for the office and contract, Made in Italy elegance and style.

Executive armchairs to define, customize and enrich the public and private space.

Quality materials and meticulous craftsmanship are the distinctive elements of Kastel executive solutions.

Kruna

Executive armchair

Executive armchair with single support frame made of tubular steel, counterframe in painted steel plate and low support plate in steel. Padding in non-deformable expanded polyurethane. Flat steel armrests, versions with arm pad in black integral polyurethane or in multilayer and padding in upholstered expanded polyurethane. Mechanisms with steel and aluminium body, cover and control levers in technopolymer, or body in aluminium with polished aluminium cover, or fixed steel plate with lever. Bases in polypropylene or aluminium on swivel castors. Versions with fixed frame made of tubular steel.

Kruna

TYPES

Kruna Plus Linear: linear padding

Kruna Plus Rhomboidal: rhomboidal padding

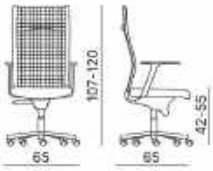
Kosmo Mesh

Executive armchair with mesh backrest

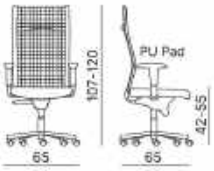
Executive armchair with seat made of steel and padding in cold-foamed expanded polyurethane. Backrest with side supports and upper holding part in polished aluminium covered with polyester mesh. Armrests in die-cast polished aluminium and arm pad in multilayer with padding in expanded polyurethane or in nylon with soft polyurethane pad. Mechanisms with steel body, cover and control levers in technopolymer, or fixed steel plate with lever. Steel gaslift and bases in polypropylene or aluminium on swivel castors. Versions with fixed frame made of tubular steel or with black polyurethane arm pads. Lumbar support in elastic material with padding in expanded polyurethane and nylon side connections. Jacket holder in chromed steel tube.

Kosmo Mesh

HIGH BACKREST

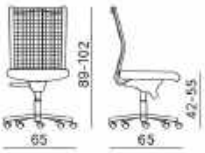


Padded polished aluminium arms

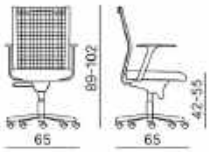


4D adjustable rotating extensible stretchable soft touch arms

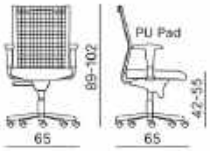
LOW BACKREST



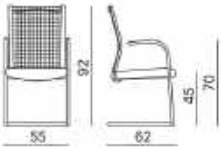
Without arms



Padded polished aluminium arms



4D adjustable rotating extensible stretchable soft touch arms



Chromed sled frame with arms
With or without black polyurethane top arm

ARMS

Padded polished aluminium arms
On request with black polyurethane top arms

4D adjustable rotating extensible stretchable soft touch arms

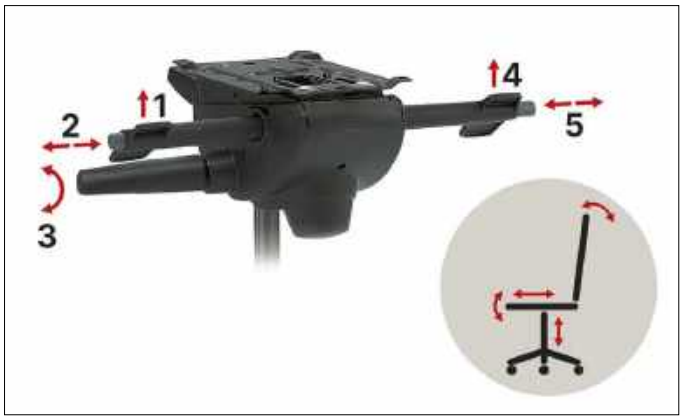
ADJUSTMENTS

Gaslift plate (GP)
Seat height adjustment

Syncron (A)
Seat and backrest tilt syncron mechanism with tension adjustment and seat height adjustment

Kosmo Mesh

ADJUSTMENTS



Syncron+slide system+varia (B)
Seat and backrest tilt syncron mechanism with tension adjustment, seat height adjustment, seat depth adjustment and attitude variator (limiting the movement of the backrest forward)

Kosmo lumbar support
Height adjustable lumbar support

1. Seat height adjustment
2. Tilt movement control
3. Tension adjustment
4. Seat depth adjustment
5. Attitude variator, limiting the movement of the backrest forward

ACCESSORIES

KSM150
Adjustable lumbar support (to be pre-assembled)

KSM151
Jacket holder (to be pre-assembled)

INFO

NOTES
The first code refers to the seat color. The second code refers to the backrest mesh color.
Top and bottom of the backrest are always in black ecoleather.

TECHNICAL SPECIFICATIONS
Only with syncron and adjustable lumbar support
• EN1335 tipo A
• D.L.81
Product tested in accordance with the current edition at the time of testing

FIRE RESISTANCE ITALIAN HOMOLOGATION
• Class 1IM: Only on request with black mesh backrest 223 and padded seat: Planet cat. A - Trevi cat. C

Double USB charge set for mobile devices (to be pre-assembled)

INFO

NOTES
The revolving table can be assembled either on the right or on the left side.
All elements, on the sides without armrests, are already equipped with linking device.
Right or left arm considered while seated.

FLAT BACK VERSION
Two colours: The first code refers to the seat, the second one to the backrest.

QUILTED BACK VERSION
The quilting of the backrest can be only made in synthetic leather, refering to these codes: 40T=C40F 41T=C41F 49T=C49F 52T=C52F
For the seats all the upholsteries in catalogue can be used. The first code refers to the seat, the second one to the quilted backrest.
