Designed in 1990 in collaboration with Danish designer, Povl B. Eskildsen, the versatile Riviera Collection has become an outdoor classic, renowned for its flexibility and straightforward appearance. Taking a sustainability approach, the design optimises the use of materials, using the slimmest possible amount in the teak slats without compromising strength. The ingenious construction is adjustable by design, allowing the pieces in the Riviera collection to transform in both expression and functionality and can easily be supplemented by a comfortable cushion.

EXTENSION LEAF

Named after the northernmost tip of Denmark, the Skagen series of outdoor furniture designed by Mogens Holmriis draws inspiration from the region's natural beauty. Characterised by meticulous craftsmanship and elegant silhouettes, the series is shaped from FSC-certified teak, a durable hard wood that patinates to a silver-grey hue over time.

## WE SUPPORT SUSTAINABLE WOOD SOURCING

One important step towards a more sustainable design industry is to support responsible wood sourcing and forest management. That is why we endorse the Forest Stewardship Council™ by increasing the total share of FSC™-certified wood in our production. Doing so, we help make sure that no more trees are felled than the forest can reproduce – and that local communities, biodiversity and forest workers are treated with respect. Since the FSC™ certification covers some areas of the world more thoroughly than others, we also take in PEFC-certified wood from Canada and the like.

Furthermore, we adhere to EU's Timber Regulation from 2013. This means that we perform due diligence on all shipments covered by the EUTR, to ensure that the wood comes from legal sources.

Look for our FSC-certified products.

responsible forestry**

**AQ01™**  
ANNE QVIST 2017

The AQ01™ has curvy edges and matt finish. The aluminium shade can be switched on, off and dimmed directly at the top. The diffuser prevents glare and gives off direct downward illumination in a symmetric rotational pattern. The delicate arms connecting the two joints hide the wire within and keep it in place with an internal spring. The AQ01™ can be configured as a plug-in, table lamp or wall mounted lamp.

A childhood fascination with Zeppelin airships gliding with steady grace across the sky, inspired Iskos-Berlin to create Avion™. The large, oval pendant hovers playfully in the air, ready to change its direction to suit your desire. The pendant emits a soft, diffuse light that creates a cosy, natural atmosphere. Avion™ can be arranged in a regular formation, as a dynamic pack or similarly it can be suspended in a line to mark a passage through a building.

**CARAVAGGIO™ OPAL**  
**CECILIE MANZ 2005**

01.2025

With Caravaggio™ Opal, Cecilie Manz has combined the characteristic Caravaggio™ design with a completely different lighting effect. The opal glass shade emits a soft, dimmed light, which is particularly suitable for rooms where a more evocative lighting is required. The lamp is suspended by the three renowned shackles, which here form a raw and masculine contrast to the feminine opal hand-blown glass. The P0 comes with an integrated LED source.

## CONCERT™ JØRN UTZON 2005

01.2025

Concert™ gives a pleasant, non-glaring light without compromising the strength of illumination. The chosen shade configuration is visually characteristic of Jørn Utzon and reminds us of his greatest work — the Sydney Opera House. Concert™ is designed with four shades and a parabola of drawn steel, resting on a glass cone suspension. The suspension unit sends out a pleasant, even light between the shades. The bottom shade casts light downward to the parabola, which then diffuses it.
