2022 Catalogue

Meinema | De Meubelmakelaar | 0031 - 20 311 8396

We are a Belgian furniture manufacturer, offering warm and playful furniture created by internationally renowned designers.

Cruso products have been designed for demanding everyday use and they are simple and welcoming. Our designs are perfect for cosy homes or large contract projects.

As a company we have adopted an eco-friendly production process. We use local and sustainable raw materials and we manufacture in Europe. Our packaging solutions are compact and we favorize land transportation over cargo flights.

**Notes Shelves**  
by Julien Renault

**Paddle Chair & Round Table**  
by Benoit Deneufbourg

*As a young design brand, we deliver long-lasting furniture independently from trends. We believe in design simplicity and sustainable manufacturing.*

**Springback Coat Stand**  
by Keiji Takeuchi

**June Table & Bench**  
by Jean-François D'Or

**Block Shelving System**  
by Big-Game

**Springback Lounge Chair**  
by Keiji Takeuchi

*We care about working with talented designers that share our philosophy.  
We make sure that their creations reach the market in the most responsible way possible.*

# Keiji Takeuchi

Focusing on the user experience

Born in Japan in 1977, Keiji spent most of his youth in New Zealand where he graduated from university with a bachelor's degree in Product Design.

Between 2005 and 2012, Keiji worked in Tokyo for the renowned industrial designer Naoto Fukasawa. He moved to Italy to set up a satellite office for Fukasawa. In 2015, Keiji established his own design office in Milan.

As a designer, Keiji interprets a quality where an idea becomes more than just an object. To him, design is an integral part of life.

## Springback Collection

The Springback collection designed by Keiji Takeuchi features a lounge chair, a coffee table and a coat hanger.

With a concept based around a flat-pack steel structure design, allowing an optimized transportation, the collection combines aesthetic, comfort and ecological solutions. Keiji used bent rods of flat steel to create simple shapes that have the personality of a classic.

The Springback collection illustrates Keiji's focus on the user experience. The gentleness felt in his projects shows again in his work for Cruso.

# Springback

## Coffee Table

With a straightforward design and the combination of wood and steel, the Springback coffee table makes a great addition to the lounge chair. Like the chair, Keiji's coffee table comes in a flat pack and is easy to install. The wooden top, available in oak and walnut, has a protective coating for easy maintenance. Just use a damp or dry cloth to wipe out stains.

MATERIAL  
Plywood oak - Plywood walnut  
Black steel - Brushed steel

# Springback Lounge Chair

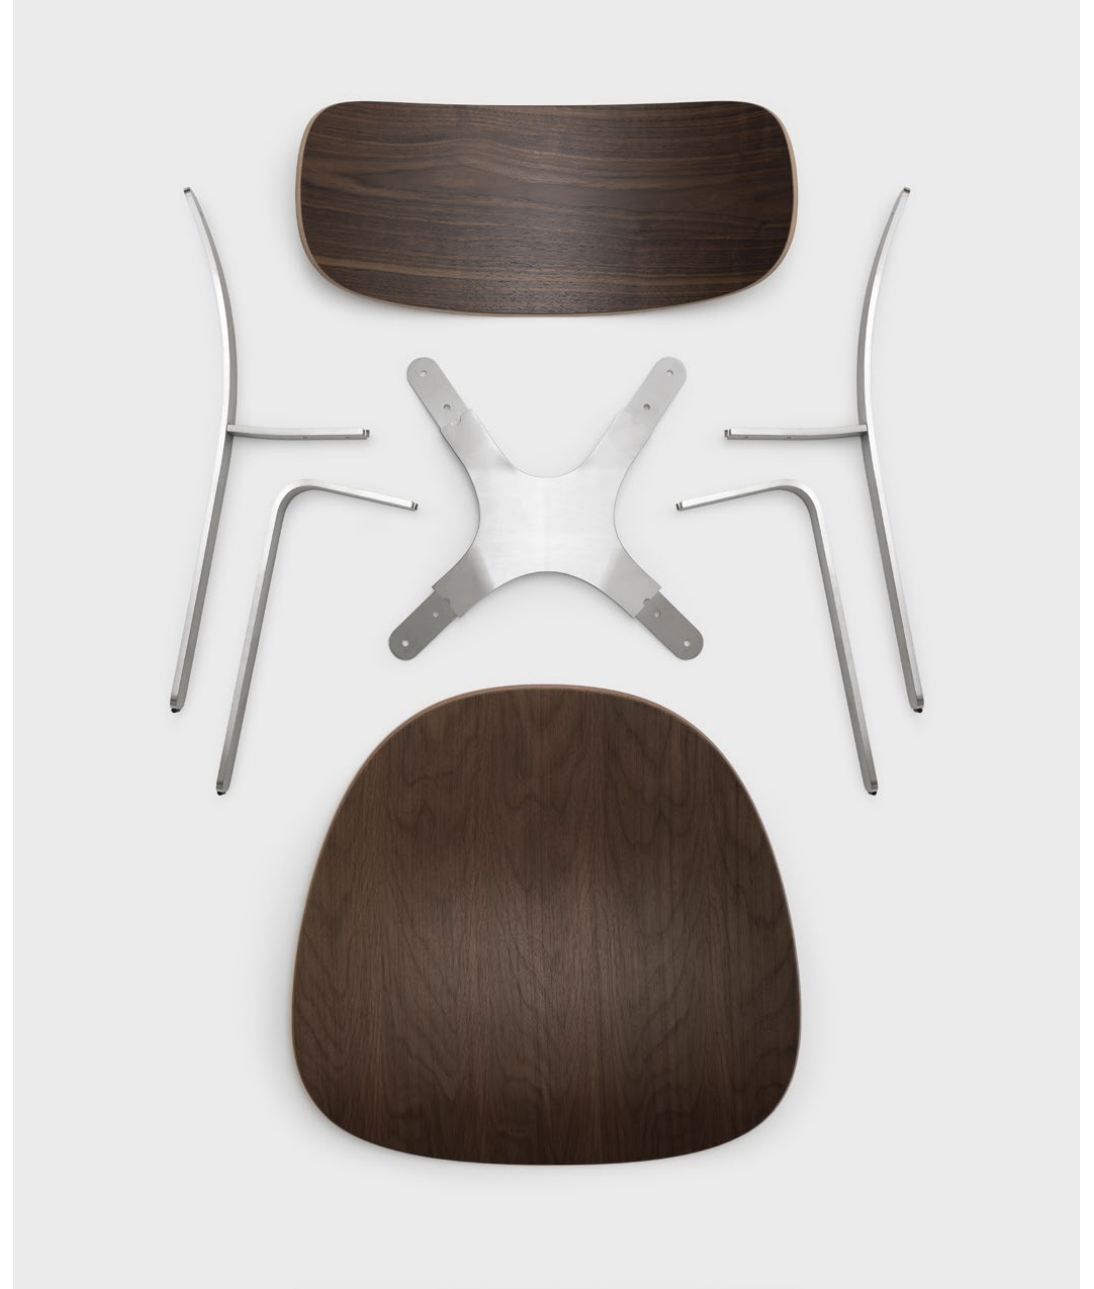

Springback Collection Keiji Takeuchi

For the Springback lounge chair, Keiji took advantage of the subtle shock absorbency provided by flat metal. It allows the chair to adapt to the user and offers a sense of flexible back support. The Springback lounge chair is also available with a Kvadrat Hallingdal 65 116 & 173 upholstered seating.

MATERIAL  
Plywood oak - Plywood walnut  
Black steel - Brushed steel  
Kvadrat Hallingdal 65 116 & 173

*With 7 parts and 10 screws, our Springback Lounge Chair combines simplicity and sturdiness.*

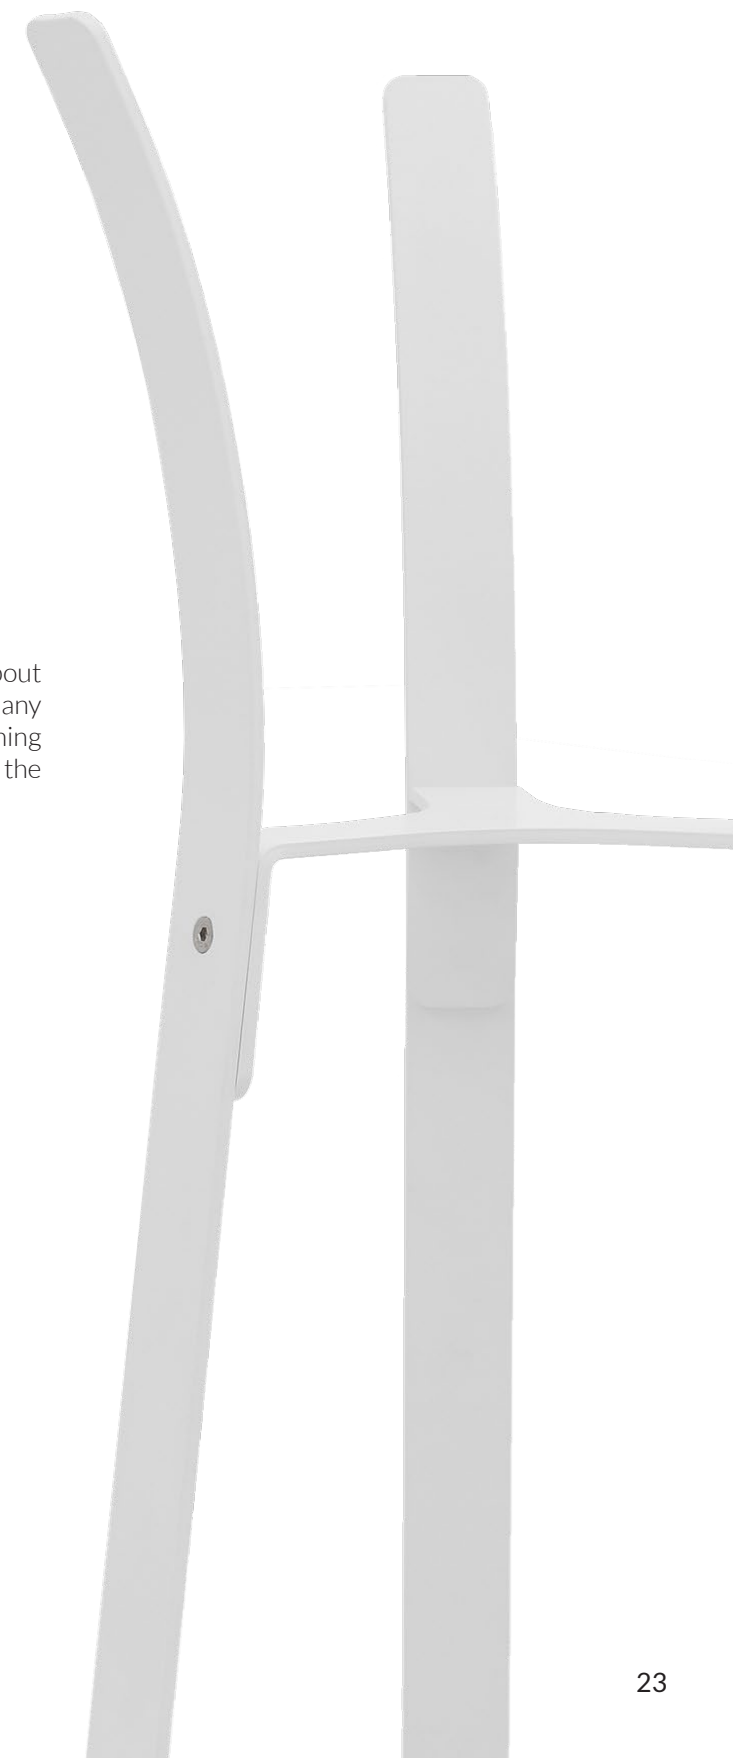

# Springback

## Coat Stand

Our Springback coat stand is all about simplicity and integrates seamlessly in any interior. The metal structure holds clothing items and bags, while the tray offers the perfect spot to empty your pockets.

MATERIAL  
Solid oak  
Black steel  
White steel  
Brushed steel

Springback Collection Keiji Takeuchi

# Julien Renault

Strong aesthetics & love for everyday objects

Julien Renault is inspired by the beauty found in everyday objects and the traces of manufacturing processes. His design practice shows a clear approach and a focus on production process, materials and strong aesthetics.

Based in Brussels, Julien's studio develops furniture and objects for various design brands. The studio also specializes in creative direction and photography for design companies and designers.

# Notes Collection

The Notes collection designed by Julien Renault is an invitation to play with compositions. Our shelves offer a solution for storage and for displaying objects that have sentimental value.

# Notes

## Shelves

With the Notes shelves, Julien Renault has designed the perfect framework for displaying beloved items. Beautiful and simple on their own, Julien created a centrepiece, making personal objects shine, while offering an aesthetic asset on the wall at the same time. The curved profile in solid wood creates a subtle graphic element.

Notes allows to create a rhythm of dynamic lines by connecting various shelf lengths. The magnetic steel mount is not hidden but serves as an underlining element.

MATERIAL  
Varnished solid oak, black laquered steel.

The 3 sizes (30, 60 and 90 cm) of the Notes shelves allow a large range of setups. Whether you align several boards for large shelving purposes or scatter them across the wall: these shelves adjust to your style and needs.

# Notes

## Trays

Just like the shelves, the Notes trays echo a smooth curve and simplicity. The warmth and tactility of this design in solid wood makes it a great companion for your small belongings.

MATERIAL  
Varnished solid oak.

# Benoît Deneufbourg

Simple and relevant design solutions

Benoît Deneufbourg has been running his design studio in Brussels since 2004. His work covers a wide range of disciplines : furniture, lighting, accessories, interior and scenography. With a pure and relevant approach Benoît aims to provide simple and effective design solutions.

In the past 15 years, Benoît exhibited his work at numerous venues such as Salone del Mobile in Milan and the Stockholm Furniture Fair. At his 2019 solo exhibition 'Process' at CID - the Innovation Design centre at Grand-Hornu Belgium - our Paddle collection was also featured.

## Paddle Collection

The Paddle collection is focused on a design language of curved shapes and generous volumes. The family of chairs, stools, and tables reflects Benoit's idea of design: simple and understated furniture that fits a wide variety of interiors.

With Paddle, Benoit approaches the design process with a straightforward attitude. It is a collection made for people in search of function, efficiency and modesty.

# Paddle Tables

**Paddle Table**  
Oak Round 120cm

Square, round, small, large or bar-height: our Paddle tables offer multiple sizes and they all come in a flat pack. Don't worry, the assembly of the table is really child's play.

MATERIAL  
Solid Oak Natural  
Solid Ash Natural  
Available in Black & White

**Paddle Table**  
Black Round 90cm

**Paddle Table**  
Ash, Oak, Black Round 90cm

**Paddle Table**  
Oak Square 90cm

*Our Paddle tables offer multiple sizes and they all come in a flat pack.*

**Paddle High Table**  
Oak Round 90cm

**Paddle High Table**  
Oak Square 90cm

# Paddle Chair

With its soft shapes and modest but friendly look, the Paddle chair plays an important role in Cruso's design language. The chair was designed in 2016 and has been one of our signature pieces ever since.

**MATERIAL**  
Oak wood Natural  
Ash wood Natural  
Available in Black - White - Nord Blue  
- Forest Green - Pearl Grey

*Simple and understated design that fits a wide variety of interiors.*

# Paddle Stool

The Paddle stool comes in 2 heights (65 and 75 cm) offering seating solutions for kitchen islands, bars and high tables.

MATERIAL  
Oak wood Natural  
Ash wood Natural  
Available in Black and White

*Our Paddle stools have a large, curved seat for increased seating comfort.*

# Big-Game

Simple, optimistic and, above all, useful

Augustin Scott de Martinville, Grégoire Jeanmonod and Elric Petit are Big-Game. The studio is based in Lausanne, Switzerland. In addition to their design work, the three founders are also professors at ECAL / University of Arts and Design Lausanne.

The studio describes its work as simple, functional and optimistic. Big-Game designs a variety of products and accessories for leading companies. The studio has received numerous international awards including the iF Design Award and the Wallpaper Design Award. Its creations can be found in the permanent collections of the Museum für Gestaltung (Zürich), CID (Grand-Hornu, Belgium), Centre Georges Pompidou (Paris) and MoMA in New-York.

## Block Shelving System

The Block shelving system is inspired by improvised shelves made of bricks and boards. The simplicity of this design makes it a clever tool for organising homes and work spaces. The choice of materials, steel and solid oak, offers a great stability for this system that goes up to 3 levels.

From the media unit, to the bookcase, or the cupboard, Big-Game created a versatile furniture system that fits various spaces and situations. It is truly timeless, functional, and beautiful.

In 2020, Block received the German Design Award in the category “Excellent product design”.

The Block shelving system features 2 widths (118 cm and 214 cm) and 3 heights levels (46 cm, 84cm and 122 cm). With doors and back panels as optional items, Block offers multiple ways in which you can use this modular system in your interior.

**MATERIAL**  
 Solid Oak Natural  
 Plywood Oak Natural  
 Steel available in Black & Light Grey  
 Aluminum available in Black & Light Grey

*The Block system offers great stability and goes up to 3 levels.  
Feel free to experiment!*

# Jean-François **D'Or**

Unpretentious design with a pinch of poetry

Jean-François D'Or graduated in industrial design at ENSAV La Cambre, Brussels in 1998. He set up his own design studio 'Loudor Design' in 2003 and was voted 'Belgian designer of the year' in 2013.

Jean-François has built up a wide, solid and international experience. He worked closely with established designers and his work has been edited by international brands such as Ligne Roset, Domani and Maison Vervloet. The designs of Jean-François are simple and unpretentious and he always aims to infuse some poetry into his creations.

## June/July Collection

The large June table has a very solid construction. It features a discreet storage space below its top for occasional needs. The table is available in two lengths (240 cm and 300 cm) and three widths (80 cm, 90 cm and 100 cm).

# June Table

*June offers a discreet storage space under the table top.*

MATERIAL  
Solid Oak Natural  
Available with Black & White feet

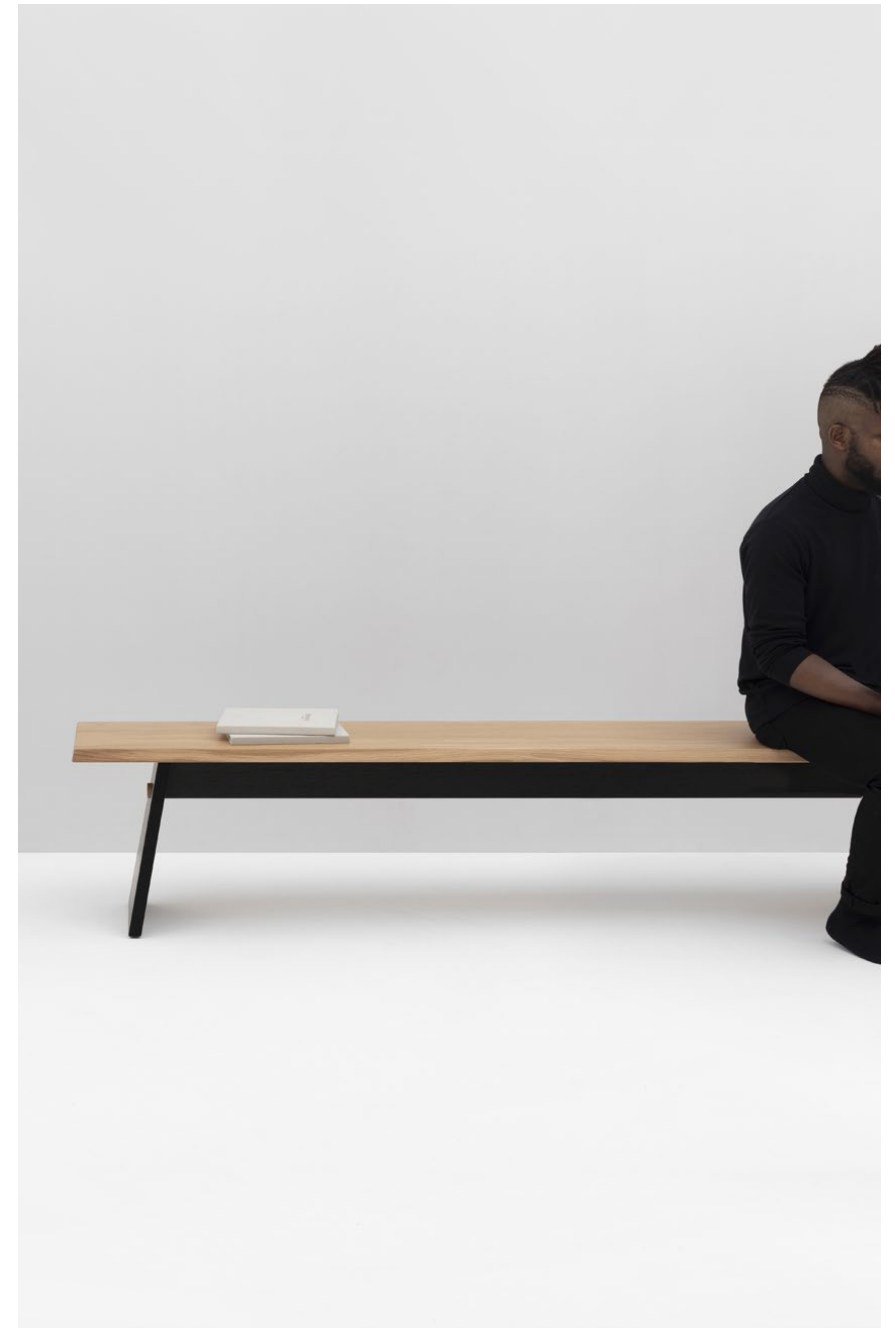

# June Bench

With 3 lengths (150 cm, 240 cm and 300 cm) the June bench can either be used for big family gatherings or be placed in a bedroom or entry lobby. Many other options are possible according to your lifestyle.

MATERIAL  
Solid Oak Natural  
Available with Black & White feet

# July Trays

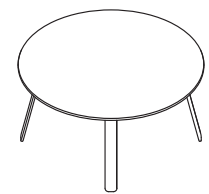

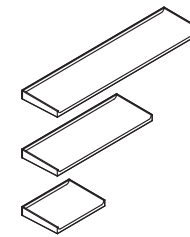

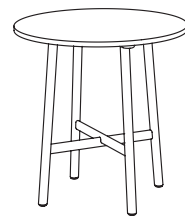

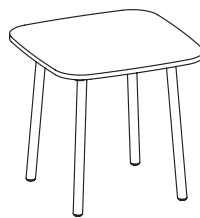

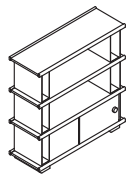

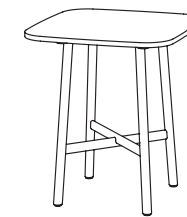

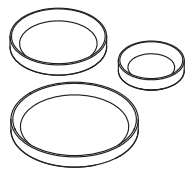

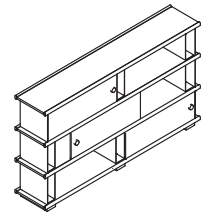

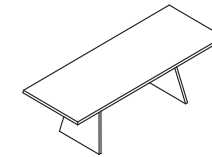

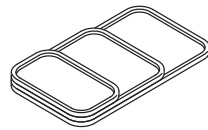

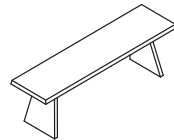

These solid oak trays are available in 3 sizes (14 cm, 28 cm and 42 cm). Stackable, they are convenient accessories in the kitchen or at your desk.

MATERIAL  
Oak wood Natural  
Available in Black & White

# Our **Commitment**

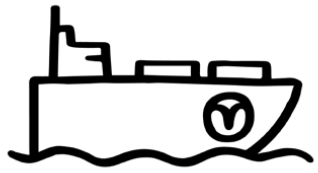

We want to offer the best design possible to our customers. It means having high quality standards for conception and production. We also care about the environment. Our objective is to constantly reduce our ecological footprint by:

- Designing durable and resistant products
- Manufacturing in Europe
- Reducing packaging and transport
- Using sustainable materials

Our production process follows these simple rules:

First, we use recycled or recyclable materials for both our products and their packaging.

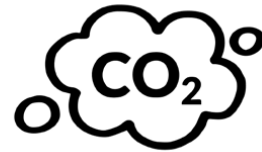

Secondly, we source and produce in Europe for limited CO<sub>2</sub> emissions during transport.

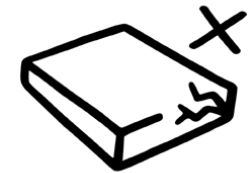

Transportation is made by land and sea only.  
We consciously ban the air solutions

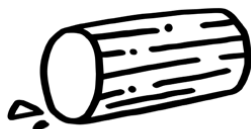

Flatpacking means that we transport less  
volume and more products

In our journey to reducing our carbon  
footprint, every choice is meaningful

Flatpacking also means that damage risks  
due to transport is lower

Our wood comes from responsibly and  
respectfully managed forests

Most of our designs are easy to install and  
have individually replaceable parts.
