Furniture that is as flexible as your lifestyle: meet AMAi, a true marvel of multifunctionality. Take every moment to new heights with the adjustable tabletop, lights, electricity, a catering station and a sunshade.

GOOD  
DESIGN

All our designs are original creations and protected by intellectual property rights.

## Extremis

This coworking space in a former chapel, brings people together around the AMAi to share ideas and get some work done. Standing or seated, under the supervision of the Holy Mary, you'll be blessed with sublime workday!

## AMAi

An effortless dinner event with friends or a focused brainstorm session with colleagues? AMAi is a landing place for togetherness, adapting instantly to every new experience.

## Extremis

This trendy and laid-back coffee shop is the perfect setting for the AMAi table in galvanized steel. An ideal spot to enjoy a latte with some home-made cake! The add-on table creates some extra space alongside the tabletop. This add-on table pins onto the side caps of the frame and can be used both in the standard and high position.

→  
Due to the white color scheme, the AMAi table's industrial look beautifully complements with the rustic facade of this historic house.

## Extremis

It's time to steal the show! With the perfect height to prepare meals and drinks, you have an outdoor cooking corner to share delicious togetherness with friends. Share a glass at the bar, throw together a meal and eat at the high or low table. At daytime or under the night sky, AMAi is a table without limits.

## Extremis

The frame overhead can have optional LED lights and/or plugs to offer connectivity at all times.

# AMAi

AMAi is the flexibility that you desire, all the time, indoors and outdoors. Two A-shaped side frames provide a solid construction. In between these frames, you can position the tabletop into two

heights: standard or high. Thanks to the innovative design, even a single person can smoothly slide the tabletop from 'sitting height' into 'standing height' and vice versa.

# Bistroo

© Design by Dirk Wynants for Extremis, 2018

Love is about looking in the same direction. Instead of sitting opposite each other, you sit side by side at the Bistroo, observing and commenting the world as it's passing by.

All our designs are original creations and protected by intellectual property rights.

## Bistroo

The homeowners of this lovely house aspired for their home to be an idyllic, minimalist sanctuary in the center of Melbourne, Australia.

Under the blossoming branches of this 100-year-old rose bush, the loveliest breakfast spot reveals itself. Dream away of what the day yet has to offer just with the two of you at the Bistroo table.

With views over the Japanese mountains of Shizuoka, this traditional arts and crafts school placed some Bistroos in the courtyard to take a peaceful break. Seated shoulder to shoulder, the pupils see the world passing by from the same point of view.

In the ever-sunny South of France, Bistroo enriches the garden of this seaside villa. It's the perfect spot to close your eyes and listen to the birds singing their morning songs.

# Bistroo

When you see the Bistroo you will immediately realise what the double 'oo' is all about. The rounded backrests provide support as you sit side by side, watching the world go by. Three legs, two seats

# Gargantua 30 YEARS

© Design by Dirk Wynants for Extremis, 1994

Back in 1994, Dirk Wynants wanted to create a table where children could comfortably sit at the same height as the adults to enable better communication. He created the perfect family table, ready to withstand the elements, and at the same time a true design icon.

## Extremis

The Gargantua table shows how aging gracefully is not only a matter of design, but also of material choice. The galvanized legs prove to be a super durable material that never rusts, while the exposure to sun and rain has caused the wooden tabletop and benches to receive a grayish tone that now perfectly suit the weathered floor.

## Gargantua

The aged wood, clean lines and galvanized steel of the Gargantua picnic table complement the sleek silhouette of this minimal private poolhouse.

Get ready for a blizzard! Gargantua doesn't mind being buried under meters of snow in the mountains of Champéry, Switzerland, thanks to the use of super-durable wood and steel.

Coworkers having a lunch break at the Transavia transport building in Schiphol/ the Netherlands.

## Extremis

Because of its adjustable benches for children, Gargantua is often passed on to the next generation. The epitome of sustainability: a product that links generations and keeps on showing its worth.

## Extremis

→  
The bench height  
can be adjusted to  
suit social or family  
circumstances.

↓  
In the highest position the  
benches become a tabletop  
extension and provide space  
for 12 people.

## Gargantua

The galvanized steel of the Gargantua matches with the metal parapets of this penthouse terrace.

→  
Cheers to a pleasant picnic with friends! 8 people can easily gather around this circle of coziness to enjoy an outdoor day to the fullest.

# Gargantua

Gargantua is the original 'tool for togetherness.' Born from the notion that gathering around a table should be accessible for all, form certainly followed function in more ways than one. The adjustable benches

ensure that small children sit at the same eye level as adults and the tabletop is accessible by wheelchair. Gargantua is the ultimate symbol of inclusivity. Provides space for 8 - 12 people.

After seeing how the main street quickly became a bustling place for families and friends, boosting the local businesses as well, the city has made a long-term investment in togetherness by placing Hopper benches along the walkways to bring people together in the public space.

## Hopper bench

# Hopper shade

© Design by Dirk Wynants for Extremis, 2010

Being based in the only hops region in Belgium, we've let the many hop gardens that dominate the landscape inspire our designs. Mimicking the hop fields, the Hopper shade has slanted poles that fold the canopy in an esthetically pleasing way.

## Extremis

# Kosmos shade

© Design by Dirk Wynants for Extremis, 2008

We wanted an umbrella that did not stand in the way when it was closed. The original and patented innovation is that it simply opens and closes horizontally like a fan... Or a bird's wings. Design by nature!

Creating elegant shade to your pool sofa? The Kosmos square shade is a freestanding umbrella that supports a clean and balanced look while adding ample shade.

Idyllic pontoon, Lake Lucerne / Switzerland.

# Kosmos shade

Kosmos shade is an ingenious design that opens horizontally like a fan, offering excellent wind resistance (wind force 6 on the Beaufort scale). It hangs low enough to provide lots of shade,

and is perfect for placing next to the Kosmos table and seat combination or any other furniture. Hidden magnets keep the shade open.

# Pantagrueel

© Design by Dirk Wynants for Extremis, 2014

Pantagrueel is the son of Gargantua and a giant too: A Gargantuan round tabletop to gather the whole family, but refined elements and a handy Lazy Susan were added. Besides a picnic version there's also a table and high table. All perfect tools to enjoy the good things in life.

## Extremis

On the tropical island of Bonaire, this Pantagruel picnic table aged beautifully under the sultry sun, excellently matching the island's white beaches and blue villa.

Everybody loves a spaghetti party! Certainly if you can keep adding sauce & cheese thanks to the rotating tray.

Pantagruel also serves as a parasol base. The pole fits into the tabletop, leaving all the space underneath for your legs!

## Pantagrueul

Hidden behind a stately Bruges facade lies this luxurious urban jungle. Landscape architect Monbaliu created a green oasis with a mix of asymmetrical shapes and exuberant borders and the round Pantagrueul picnic as centerpiece.

→  
Add a backrest to your  
Pantagruel benches for  
extra comfort. These  
curved backrests follow  
the shape of the round  
picnic table while adding  
a sleek back support

## Pantagrue!l

The stepped construction of this apartment building by Govaert & Vanhoutte creates an intriguing play of floating terraces. The Pantagrue!l picnic seamlessly integrates in the design where open facades enhance the wide view of the North Sea, its dunes, and the natural reserve.

At the HQ of Afas Software in the Netherlands, the employees are enjoying a break on one of the many outdoor terraces. The Sunbrella cushions add a soft yet stylish touch to the Earth legs for ultimate comfort.

## Pantagrue

At Endo Lighting in Tokyo, Japan, this indoor patio brings the outdoor elements indoors. The Pantagrue picnic tables bring people together, and its round shape includes everybody equally. The wooden seats and tabletop add a warm touch, while the shadow play adds an exciting element to the space.

The Ena campus in Greece aims to offer a balance between workspaces and break areas.

The Lazy Susan in the center of the Pantagrue table makes sharing easy.

# Pantagruel

The Pantagruel round picnic table seats eight. When combined with the wood used for the tabletop and benches it forms a durable outdoor picnic set. Pantagruel also features a Lazy Susan, to

take the hard work out of passing food and drinks around. In addition to the picnic version, there is the Pantagruel table and the high table.

# Picnik

© Design by Dirk Wynants & Xavier Lust for Extremis, 2002

The launch of this design elevated a simple 'tête à tête' to an extremely romantic or even philosophical converse. Picnik became a real design classic, thanks to its iconic shape.

## Picnik

The sweet spot of this house? The terrace with dune views! Step outside the bedroom and you'll find the Picnik table waiting for you to kickstart your day.

The Picnik in Verdigris blends easily with the garden, making the table a subtle eye-catcher.

Relaxing in style in this  
beautiful urban garden.

# Picnik

This table for two is in fact much more than just a table seating two people. Picnik was of course primarily designed as a table and bench seat combination for small outdoor spaces. But thanks to its

striking looks – both solid and stylized at the same time – Picnik is also frequently used indoors. One flat aluminium sheet is transformed into a Picnik, thanks to a number of strategic incisions and folds.
