/ STACKING CHAIR

4 6 0 8 / 4 6 0 8 / A / 4 6 2 8 / 4 6 2 8 / A

- Armrests can be attached, and chairs can be arranged in rows, with their integrated panic-proof row connection (option), using the innovative MFE plus multifunction element
- The MFE also protects against scratches and reduces noise on every edge of the frame and when the chairs are stacked
- Row connection for a multitude of placement variants: chair to chair, chair with armrests to chair, chair with armrests to chair with armrests
- Can be stored in stacks of up to twenty chairs, with a mixture of chairs with and without armrest in each stack
- Self-centring frame stacking (without stacking grooves)
- Ergonomic shell shape: narrow radii on shells and the frame
- New shell shape 62 with edges flattened by the Hydroplus process
