SHELVE

DIMENSIONS

STRUCTURE

Uprights and crosspieces made in steel tubular with squared section 30 x 30 mm inserted themselves into the structural beams and fixed by using some screws.

Tops are in sheet metal with thickness mm 1,5 and interlocking leaned.

The final uprights are available and the central ones too, which allow the implementation of pieces.

Each element is embossed painted in the following colors:

USAGE AND CARE

SHELVE

For a proper maintenance of the products and to maintain unchanged the characteristics of the materials, we recommend to follow some very simple care instructions.

METALS

Cleaning: both steel or aluminium surfaces, and painted ones, must be cleaned with a soft and wet cloth with hot water. For the most persistent stains, a small amount of liquid soap diluted in water may be used. We always recommend to dry immediately with a soft cloth or a leather one after the cleaning process. Never using cleaning products for steel, chlorine, bleach or other strong detergents. It is not recommended to use abrasive creams, score pads and abrasive sponges that can scratch the metal surfaces. Usage: pay attention to the stains of food such as coffee, coke, fruit juices that can leave indelible marks on the surface

WARRANTY

Quinti products are covered by 5 years warranty from the delivery date, unless normal usage and provided that materials are used following the instructions. Quinti will substitute without costs each product found not corresponding to the warranty, declining all other responsibility. The warranty doesn't include components, external accessories or materials provided by the purchaser and applied to the products in order to personalize them.
