

PRODUCT SUSTAINABILITY INFORMATION

14.11.2023

POLYTONE - L
Conference chair
W=560 mm, D=550 mm, H=785

Total weight: 4,75kg

Total recycled material = 12,09 %

Recyclability of the product = up to 100%

Material	%
Metal	60,45%
Plastics	39,55%
In total	100%

Product information:

- 10-year limited warranty (5 years for height adjustment mechanisms, worksurfaces and upholstery materials).

Material information:

- Powder coating is used for metal. This type of coating has negligible amounts of volatile organic compounds (VOCs).
- Cardboard used for packaging is 100% recycled and recyclable.
- Chairs are stackable (up to 6 chairs) to save space and CO₂ emissions during transportation.

Company's sustainability information:

- Certified to ISO14001 (Environmental Management System).
 - 100% electricity used in Narbutas manufacturing processes and offices is renewable.
 - Narbutas long term goal: Reduce CO₂ emissions and become a climate-neutral company by 2028.
 - Annual Sustainability Report is publicly available under: <https://www.narbutas.com/wp-content/uploads/2023/05/SUSTAINABILITY-at-NARBUTAS-report-EN.pdf>
