Kaska Wooden Stack Chair + Armrests

- made from high-quality oak veneer and solid oak
- lightweight and easy to move
- optional armrests
- comfortable seat with waterfall front edge
- stackable up to 6 pieces

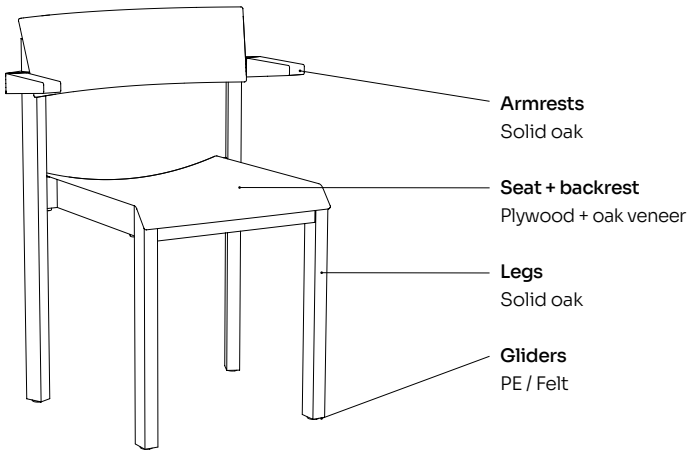
Colours

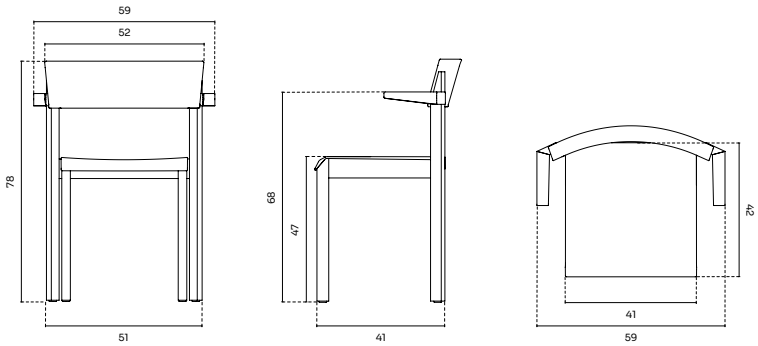
Standard	Clear, Brown, Black

Kaska Wooden Stack Chair is a lightweight, stackable wooden chair made from solid wood and moulded plywood. Designed for daily use, it offers lasting comfort through refined details like the curved backrest, angled legs and waterfall seat edge. With its clean, minimal form, Kaska fits seamlessly into cafés, conference rooms or cultural venues. Customisable in finishes and available with optional armrests, it's a versatile addition to any space.

Designed by **Thomas Bentzen**

Product overview





Certifications
- Umwelt declaration according to ISO 14025 and EN 15804+A1

Downloads
3D files, technical drawings and Hi-Res images are available in the Download library at devorm.nl

Additional information
You can find further maintenance recommendations, warranty terms and corporate information in the Information Bank at devorm.nl
