NEW PERSPECTIVES ON SCANDINAVIAN DESIGN

Muuto is rooted in the Scandinavian design tradition characterized by enduring aesthetics, functionality, craftsmanship and an honest expression.

By expanding this heritage with forward-looking materials, techniques and bold creative thinking, our ambition is to deliver new perspectives on Scandinavian design.

In fact our name, Muuto, comes from *muutos*, meaning new perspective in Finnish. We handpick leading contemporary designers who are strong interpreters of our philosophy and combine their talents with the passionate Muuto creative team.

You will know our design because it has *muutos*: objects made sublime through new perspectives, enjoyed across the world, representing the best of Scandinavian design today.

BRINGING FEELINGS OF HOME TO PROFESSIONAL PROJECTS

Contemporary Designs of Warmth, Functionality & Friendly Expressions

Our collection spans across an extensive selection of furniture, lighting and accessories, designed to meet the ever-changing needs of modern workplaces and public environments. Through design that is timelessly modern and inherently functional, we strive to bring new perspectives on what an office space, educational institution, public area or hospitality setting can be, showing how environments with an inviting and personal atmosphere can inspire its users throughout the day while making them feel at home and at their best.

Vast In-Stock Collection & Customization Possibilities

With a vast in-stock collection, many of our designs are available for immediate shipping in a broad selection of colors and upholsteries. Alongside this are our made-to-order options with many possibilities for customization, allowing you to tailor our designs to your specific project. Consult our pricelist for lead times within your region.

Designs That Are Made To Last

We produce our furniture in Europe to ensure high-quality designs with long-lasting properties that will bring a modern sentiment and functional character to any space for many years to come. All Muuto furniture is covered by a 5-year warranty for contract orders.

Configuration Made Easy

The entire Muuto collection is now available in pCon.planner and 2020 CAP. The space planning software contains CAD files that are enriched with prices and relevant product information, enabling you to configure Muuto designs to the exact needs of your project in a few easy steps, create high-quality 2D or 3D plans and deliver accurate price quotations—all at once. All of our architect files, inspirational photos and much more are available for easy use in your design and planning process on Muuto.com/Professionals.

FIBER ARMCHAIR SWIVEL & GAS LIFT BASE

by Iskos-Berlin

Fiber Armchair is made from an innovative composite of wood and plastic fibers for a deep, matte surface and soft touch. The design has a slender form that doesn't take up much space while having an embracing, spacious seat for maximum comfort. Fiber Armchair Swivel Base is ideal for office and hospitality settings.

DIMENSIONS

Swivel Base & Swivel w/Castors

Total height: 77 cm / 30.3"
Total width: 54,5 cm / 21.5"
Total depth: 56 cm / 22"
Armrest height: 67,5 cm / 26.5"
Armrest depth: 34 cm / 13.5"
Seat height: 46 cm / 18.1"
Seat depth: 44 cm / 17.25"
Seat width: 46 cm / 18.1"

Swivel w/Castors & Gas Lift (5 Star Base)

Total height: 76,5-83 cm / 29.9"-32.7"
Total width: 70 cm / 27.6"
Total depth: 70 cm / 27.6"
Seat height: 46-53 cm / 18.1"-20.9"
Seat depth: 44 cm / 17.25"
Seat width: 46 cm / 18.1"

MATERIALS

Shell consists of an innovative composition of plastic and upto 25% wood fibers. The wood fiber and plastic blend is injected into the mold, forming the chair's shell. The Fiber Chair family is made partly from a natural material, therefore slight color variations can occur. For upholstered versions, the shell's inside is upholstered with foam and fabric. The fabric is glued to the shell's surfaces and stapled, which ensures a smooth and tight surface of the upholstery. The 4 or 5 leg swivel piece and cylinder are die casted aluminum. Pressurized gas lift cylinder.

PROCESS

The wood and plastic composition is heated and poured into a mold that presses the chair's shell. The swivel base is made from die casted aluminum, casted in one piece. Cylinder is aluminum.

COLORS

Ochre (close to NCS S 3040-Y20R) / Black (RAL 7021), Dusty Red (RAL 3016)*, Black (RAL 7021), Dusty Green (RAL 7033)*, Natural White (close to RAL 9010), Grey (RAL 7030).

*Swivel base w. Castors and Gas Lift is not available in Dusty Red or Dusty Green.

KVADRAT FABRIC DETAILS

Remix: 90% new wool worsted, 10% nylon. Durability: 100,000 Martindale.

MADE-TO-ORDER OPTIONS

Fiber Swivel base in polished aluminum, with return, castors or gaslift and non-standard colored chairs are made-to-order. The chairs can be upholstered in all colors from Kvadrat's Remix, Steelcut, Steelcut Trio, Canvas, Clara, Hallingdal, Divina MD & Divina Melange textile series, in all Wooly colors from Nevotex and in all of our various leather qualities. See leather & textile overview pp. 134-139.

FIBER ARMCHAIR WOOD BASE

by Iskos-Berlin

Fiber Armchair is made from an innovative composite of wood and plastic fibers for a deep, matte surface and soft touch. The design has a slender form that doesn't take up much space while having an embracing, spacious seat for maximum comfort. The chair's wood base creates a sturdy and timeless silhouette that fits beautifully into any office, restaurant or public space.

DIMENSIONS

Total height: 77 cm / 30.3"

Total width: 54,5 cm / 21.5"

Total depth: 56 cm / 22"

Armrest height: 67,5 cm / 26.5"

Armrest depth: 34 cm / 13.5"

Seat height: 46 cm / 18.1"

Seat depth: 44 cm / 17.25"

Seat width: 46 cm / 18.1"

MATERIALS

Shell consists of an innovative composition of plastic and up to 25% wood fibers. The wood fiber and plastic blend is injected into the mold, forming the chair's shell. The Fiber Chair family is made partly from a natural material, therefore slight color variations can occur. For upholstered versions, the shell's inside is upholstered with foam and fabric. The fabric is glued to the shell's surfaces and stapled, which ensures a smooth and tight surface of the upholstery. The wood base is cut from solid oak and polished. Colored versions receive a powder lacquer on the base after polishing.

PROCESS

The wood and plastic composition is heated and poured into a mold that presses the chair's shell. Wood base is cut from solid oak and wet lacquered.

FIBER ARMCHAIR FRONT UPHOLSTERY

by Iskos-Berlin

The Fiber Armchair Front Upholstery combines the comfort of upholstery with the lightness and character of the wood fiber composite shell. The outer shell is formed from the same innovative composite as the rest of the Fiber Chair family while the endless combinations of upholstery options, shell colors and bases allow it to fit into any setting.

MADE-TO-ORDER OPTIONS

All chairs are made-to-order. The chairs can be upholstered in all colors from Kvadrat's Remix, Steelcut, Steelcut Trio, Canvas, Clara, Hallingdal, Divina MD & Divina Melange textile series, in all Wooly colors from Nevotex and in all of our various leather qualities. FIBER SIDE CHAIR A-BASE

by Iskos-Berlin

The Fiber Side Chair A-Base adds a light expression to the Fiber shell through to its base of chrome steel. With its A-Base, the chair is stackable with up to 15 chairs per stack. This makes it an ideal fit for settings that require flexible seating arrangements, such as canteens and conference settings.

DIMENSIONS

Total height: 77 cm / 30.3"

Total width: 56 cm / 22"

Total depth: 53 cm / 21"

Seat height: 46 cm / 18"

Seat width: 47,5 cm / 18.75"

Seat depth: 45 cm / 17.7"

MATERIALS

Shell consists of an innovative composition of plastic and up to 25% wood fibers. The wood fiber and plastic blend is injected into the mold, forming the chair's shell. The Fiber Chair family is made partly from a natural material, therefore slight color variations can occur. Base is made from chromed steel tube (chrome III).

PROCESS

The wood fiber and plastic blend is injected into the mold, forming the chair's shell.

COLORS

Grey (RAL 7030), Dusty Green (RAL 7033), Natural White (close to RAL 9010), Dusty Red (RAL 3016), Black (RAL 7021), Ochre (close to NCS S 3040-Y20R).

KVADRAT FABRIC DETAILS

Remix: 90% new wool worsted, 10% nylon. Durability: 100,000 Martindale.

MADE-TO-ORDER OPTIONS

Fiber A-base with or without linking device are made-to-order. The chairs can be upholstered in all colors from Kvadrat's Remix, Steelcut, Steelcut Trio, Canvas, Clara, Hallingdal, Divina MD & Divina Melange textile series and in all Wooly colors from Nevotex. See textile overview and specifications pp. 134-139.

ACCESSORIES

A Fiber Side Chair A-Base trolley is available for order.

If using the trolley, we recommend a maximum stack height of 15 chairs.

FIBER BAR STOOL & STOOL WOOD BASE

by Iskos-Berlin

The Fiber Bar Stool has a seat made in an innovative composite of wood and plastic fibers for a deep, matte surface and soft touch. Seen here with wooden base for a warm touch, the Fiber Bar Stool is a fitting design for any bar, restaurant or high table setting.

DIMENSIONS

High/Bar Stool w/Backrest

Height: 97,5 cm / 38.5"
Width: 44,5 cm / 17.5"
Depth: 45,5 cm / 18"
Seat height: 75 cm / 29.5"
Seat depth: 41,5cm / 16.3"

Low/Counter Stool w/Backrest

Height: 87,5 cm / 34.5"
Width: 42,5 cm / 16.75"
Depth: 44,5 cm / 17.5"
Seat height: 65 cm / 25.5"
Seat depth: 41,5cm / 16.3"

High/Bar Stool

Height: 76 cm / 30"
Width: 45 cm / 17.75"
Depth: 45,5 cm / 18"
Seat height: 75 cm / 29.5"
Seat depth: 41,5cm / 16.3"

Low/Counter Stool

Height: 66 cm / 26"
Width: 45 cm / 17.75"
Depth: 42,5" / 16.75"
Seat height: 65 cm / 25.5"
Seat depth: 41,5cm / 16.3"

Stool

Height: 46 cm / 18"
Width: 45 cm / 17.75"
Depth: 35,5 cm / 14"
Seat height: 45 cm / 17.75"
Seat depth: 41,5cm / 16.3"

MATERIALS

Shell consists of an innovative composition of plastic and up to 25% wood fibers. The wood fiber and plastic blend is injected into the mold, forming the chair's shell. The Fiber Chair family is made partly from a natural material, therefore slight color variations can occur. For upholstered versions, the shell's inside is upholstered with foam and fabric. The fabric is glued to the shell's surfaces and stapled, which ensures a smooth and tight surface of the upholstery. The wood base is cut from solid oak and polished.

PROCESS

The wood fiber and plastic blend is injected into the mold, forming the bar stool's shell. The wood base is cut from solid oak and wet lacquered.

COLORS

Black (RAL 7021), Dusty Green (RAL 7033), Natural White (close to RAL 9010) / Oak, Grey (RAL 7030), Ochre (close to NCS S 3040-Y20R) / Oak.

MADE-TO-ORDER OPTIONS

Premounted felt glides are made-to-order. Unmounted felt glides are purchased separately. Textile upholstery, non-standard colors and select heights are made-to-order. The chairs can be upholstered in all colors from Kvadrat's Remix, Steelcut, Steelcut Trio, Canvas, Clara, Hallingdal, Divina MD & Divina Melange textile series, in all Wooly colors from Nevotex and in all of our various leather qualities. See leather & textile overview pp. 134-139.

LOFT CHAIR

by Thomas Bentzen

Loft Chair combines Scandinavian design with industrial references in a durable design. Its solid powder coated steel base contrasts the warmth of the plywood seat and back, moulded to embrace the user's body. The cast frame is welded to give stability and added durability to the chair. Loft Chair is also available with textile seat upholstery as a made-to-order option.

DIMENSIONS

Height: 78,5 cm / 31"
Width: 42,5 cm / 16.75"
Depth: 48 cm / 19"
Seat height: 46 cm / 18"
Seat depth: 40,9 cm / 16.1"

MATERIALS

Back and seat in veneer with a beech core and an oak veneer top. Black version is lacquered. Frame in powder coated steel.

PROCESS

The seat and backrest are made with wood veneer, which have been lacquered with either a clear or colored PU lacquer. The frame is made of welded steel finished with an extra durable acrylic powder coating.

COLORS

Oak/Black (RAL 9005), Oak/White (RAL 9016),
Oak/Dusty Rose (RAL 3012), Oak/Dusty Green (RAL 7033),

COVER CHAIR

by Thomas Bentzen

The Cover Chair is a new perspective on the iconic Scandinavian wooden chair. With a sturdy beech wood frame and an ingenious curved backrest that stretches into armrests, the design's refined form makes Cover a great choice for office, education and restaurant settings.

DIMENSIONS

Height: 76 cm / 30"
Width: 56,5 cm / 22.25"
Depth: 46 cm / 18"
Seat height: 46 cm / 18"
Seat width: 45 cm / 17.75"
Seat depth: 37 cm / 14.5"
Armrest height: 69 cm / 27.25"

MATERIALS

Oak version: PU lacquered, form pressed oak wood veneer shell. Frame is made from solid beech wood.
Colored version: seat and shell is made from ash, while frame and legs are made from solid beech wood.

PROCESS

The Cover Chair is made from form pressed wood. The wood is folded over the chair's legs and back rest. This technically innovative wood layering helps lock the elements of the chair together. Upholstered seats are with textiles from Kvadrat or Refine leather.

COLORS

Oak, Black (NCS S 9000-N), Grey (Pantone Cool Grey C6), Anthracite (NCS S 8005-R80B), Green (NCS S 6010-G10Y).

WORKSHOP CHAIR

by Cecilie Manz

The Workshop Chair is a simple and honest design with just a few right details: Its curved seat and back offering optimal comfort, the natural grain of the wood and its solid, yet light proportions — all examples of Scandinavian craftsmanship. With its compact size, the Workshop Chair is ideal for workspaces, intimate restaurants, canteens and café environments.

DIMENSIONS

Height: 79 cm / 31"

Width: 40 cm / 15.75"

Depth: 46 cm / 18"

Seat height: 45 cm / 17.75"

Seat depth: 38,9 cm / 15.3"

MATERIALS

Black version: Lacquered oak.

Oak and Oregon Pine version: The oak and pine wood versions are treated with a matte clear lacquer.

Frame and legs are made from solid wood. The backrest and seat are made from veneer wood.

PROCESS

The Workshop Chair is made using traditional techniques with a high focus on craftsmanship and detailing. Frame and legs are made from solid wood, whilst seat and back consist of form pressed wood veneer layers.

COLORS

Black (RAL 9017), Oak, Oregon Pine.

MADE-TO-ORDER OPTIONS

Premounted felt glides are made-to-order. Unmounted felt glides are purchased separately. Non-standard colored chairs are made-to-order.

VISU TROLLEY

For Visu Sled Base & Tube Base Chairs

The Visu Trolley is designed to move away and store Visu Sled Base and Visu Tube Base Chairs. The trolley can withstand a weight load of 400 kg / 882 lb and fit up to 20 Visu Chairs with wood seats.

DIMENSIONS & WEIGHT

Height: 40,5 cm / 16"
Length: 76,5 cm / 30"
Width: 57 cm / 22.5"
Weight: 20,5 kg / 45.2 lb

MATERIALS

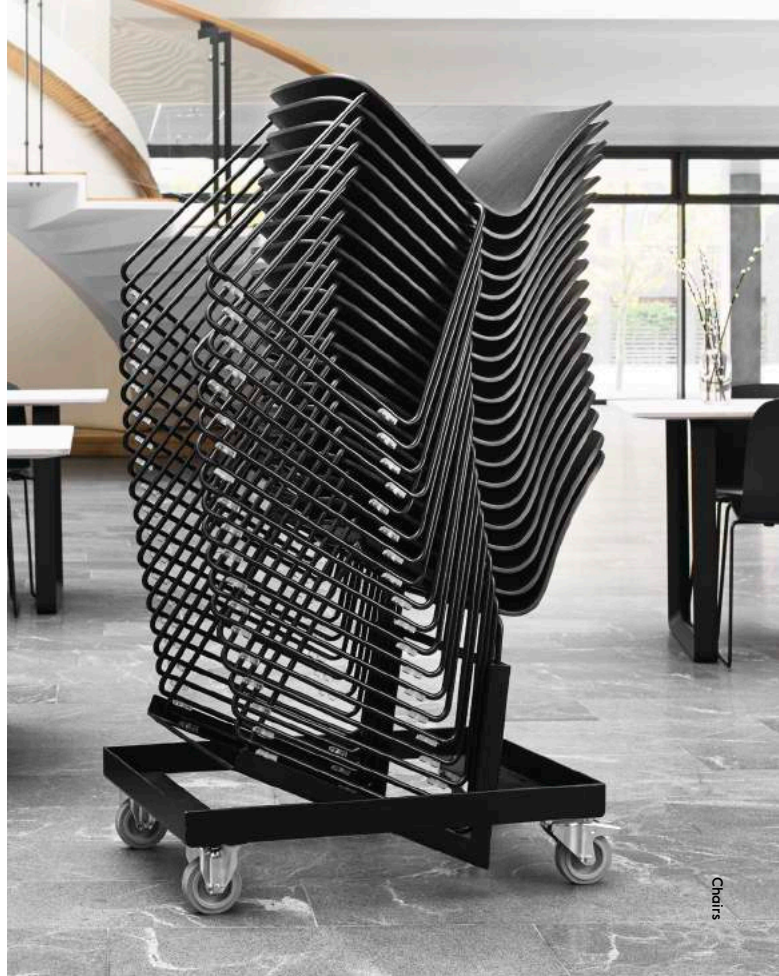

6 mm / 0.2" powder coated flat steel. Wheels from Tente.

PROCESS

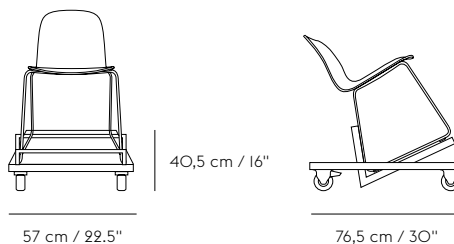

Raw steel is cut and welded together using TIG-welding. The steel is then polished, painted black and powder lacquered. Lastly, high quality wheels from Tente are installed.

COLOR

Black.

Chairs

VISU LINKING DEVICE

For Visu Sled Base & Tube Base Chairs

The linking device enables Visu Sled Base and Tube Base Chairs to be connected in a straight line and keep them in position. The linking device can easily be unlinked and folded up under the chair.

DIMENSIONS

Length: 28 cm / 11"
Depth: 6,1 cm / 2.5"

MATERIAL

Black polyoxymethylene.

PROCESS

The device is pre-mounted to the chair's steel frame with screws. The linking device is not recommended for upholstered chairs.

COLOR

Black.

VISU WIDE CHAIR WOOD BASE AND SWIVEL BASE

by Mika Tolvanen

Visu Wide Chair increases the comfort within the Visu design even further through its generous proportions. The design has a wide seat and back for added comfort. Available with both a wood, swivel base and swivel base with castors, the design is the perfect choice for conference rooms, restaurants and office interiors.

DIMENSIONS

Height: 78,5 cm / 31"
Width: 50 cm / 19.75"
Depth: 55 cm / 21.75"
Seat height: 46 cm / 18"
Seat width: 50 cm / 19.75"
Seat depth: 43 cm / 16.9"

MATERIALS

Wood base: Lacquered ash or oak veneer shell, form pressed wood veneer base. Colored chairs are PU lacquered.

Swivel base: Lacquered ash or oak veneer shell, swivel base is powder coated aluminum. Castors from Tente. Colored chairs are PU lacquered.

PROCESS

The shell and base are form pressed from wood veneer and lacquered. Upholstered chairs are padded with fire-resistant foam and fully upholstered textile.

Swivel base: The four leg swivel piece is dye casted aluminum, casted in one piece. Cylinder is aluminum.

SHELL COLORS

Oak, Black (RAL 9017).

MADE-TO-ORDER OPTIONS

Tables

CABLE MANAGEMENT KIT

For Base Table & 70/70 Table

A cable management solution that can be implemented into tables to keep all your cables in order. The kit consists of a cable pit for the tabletop, a wire basket for underneath, a cable guide and grips that can hold the table in place. The Cable Management Kit can be implemented in the Base Table, Base High Table and 70/70 Table for efficient office and work environments.

DIMENSIONS

Cable Pit: 29,5 x 11,7 x 2,75 cm / 11.5" x 4.5" x 1"

Cable Basket: 50 x 15 x 7 cm / 19.75" x 6" x 2.75"

Cable Sock: 300 cm / 118"

MATERIALS

Cable Pit: Aluminum.

Cable Basket: Steel.

Cable Sock: Polyester.

SPLIT TABLE

by Staffan Holm

Referencing the Scandinavian design tradition, the Split Table combines a timeless material with a unique and sturdy base. The table derives its name from its unique feature of bent split legs, adding a characterful look to any co-working space, restaurant or lounge setting.

DIMENSIONS

Length: 220 cm / 86.5"

Width: 90 cm / 35.5"

Height: 73 cm / 28.75"

Tabletop height: 3 cm / 1.25"

Length between legs: 189 cm / 74.5"

Width between legs: 66 cm / 26"

MATERIALS

Tabletop and legs are made from solid oak wood.

PROCESS

Tabletop is solid full-length oak wood glued together, legs are assembled of solid cnc-milled wood pieces. The table is treated with a hardening oil.

COLORS

Natural Oak.

LINEAR STEEL OUTDOOR SERIES

by Thomas Bentzen

The Linear Steel Series is a new perspective on modern outdoor furniture through its straight lines alongside the folded edges, half-circular intersecting legs and small spacing for easy removal of water. Kept visually clean for long-lasting aesthetics, the Linear Steel Series finds its distinct character through subtle detailing and a simple expression.

Leg height: 12 cm / 4.75"

MATERIALS

Steel base, wooden frame, oak wood legs, granulated foam and cold foam mixed with feather filling. Seat with density of 35, back with density of 25.

PROCESS

The sofa is built around a steel base and a plywood frame. The sofa's corpus is padded with vating and upholstered with fabrics from Kvadrat. Seat and back cushions are filled with granulated foam, cold foam, and feather, then upholstered with fabrics from Kvadrat, Nevotex or Arve.

FABRIC DETAILS

Hallingdal: 70% new wool, 30% viscose. Durability: 100,000 Martindale. **Remix:** 90% new wool worsted, 10% nylon. Durability 100,000 Martindale. **Steelcut Trio:** 90% new wool worsted, 10% nylon. Durability: 100,000 Martindale. **Vancouver:** 52% cotton, 48% PC. Durability: 40,000 Martindale. **Vidar:** 94% new wool, 6% nylon. Durability: 100,000 martindale. **Wooly:** 70% wool, 25% polyamide, 5% other fibres. Durability: 150,000 Martindale.

MADE-TO-ORDER OPTIONS

The Rest Studio and Pouf are made-to-order. Rest Sofa series can be upholstered in all colors from Kvadrat's Remix, Rime, Steelcut, Steelcut Trio, Hallingdal, Vidar and Fiord, in all Nevotex's Wooly colors and in 4 additional colors from Arve's Vancouver textile series. See textile overview and specifications pp. 134-137

AROUND COFFEE TABLE

by Thomas Bentzen

The Around Coffee Table has a unique expression with its frame in wood veneer that runs around the border of the tabletop. The design comes in three sizes of various colors, making Around Coffee Table ideal for any lounge, hospitality or open-floor setting, on its own or in combination with multiple versions.

DIMENSIONS

Small

Height: 46 cm / 18"

Diameter: 45 cm / 17.75"

Large

Height: 36 cm / 14.25"

Diameter: 72 cm / 28.25"

Extra Large

Height: 36 cm / 14.25"

Diameter: 95 cm / 37.5"

MATERIALS

Ash: Ash plywood and solid ash legs.

Oak: Oak plywood and solid oak legs.

Colored tables: Ash plywood and solid ash legs are PU lacquered.

PROCESS

The wood is carefully cut, bended, glued together and polished. The delicately lacquered surface protects the tables from the wear and tear of everyday use.

COLORS

Oak, Ash, Anthracite (NCS S 8005-R80B), Dark Red (RAL 3009), Black (RAL 9005), Grey (Pantone Cool Grey 6C), Dark Grey (NCS S 5000-N), White (RAL 9016), Dusty Green (NCS S 4010-G5OY), Yellow (NCS S 0580-Y). Yellow is only available in size small.

ACCESSORIES

Felt glides are included.

MADE-TO-ORDER

Non-standard colored coffee tables are made-to-order.

WORKSHOP COFFEE TABLE

by Cecilie Manz

Simple in its expression, the Workshop Coffee Table has a clean and refined look with its tabletop in oak veneer harmoniously carving itself into the frame of solid oak, echoing the understated details of traditional Scandinavian craftsmanship. With its rectangular shape and light and elegant appearance, Workshop Coffee Table can both function as a lounge furniture accompaniment and a standalone table in the hallway or larger areas to act as a counter object.

DIMENSIONS

Length: 120 cm / 47.25"

Width: 43 cm / 17"

Height: 38 cm / 15"

MATERIALS

Legs and frame in solid wood. Tabletop in oak veneer.

Black version comes in a lacquered oak. Oak version comes with a matte clear lacquer.

PROCESS

The Workshop Coffee Table is made using traditional techniques with an emphasis on craftsmanship and detailing. Frame and legs are made from solid wood alongside its tabletop in layer-glued oak veneer.

COLORS

Oak, Black (RAL 9017).

TESTS

EN 15372:2016 - L3: Extreme use

Furniture - Strength, durability and safety - Requirements for non-domestic tables.

EN 16139:2013 - L2: Extreme use

Furniture - Strength, durability and safety - Requirements for non-domestic seating.

Coffee & Side Tables

87

AIRY COFFEE TABLE

by Cecilie Manz

Airy Coffee Table has a light expression with its tabletop almost floating elegantly above the thinly welded frame. Airy is a multi-purpose family of tables that works as well on its own as when combined with different heights in any lounge, office or hospitality setting.

DIMENSIONS

Large

Height: 41,2 cm / 16.25"
Length: 120 cm / 47.25"
Width: 65 cm / 25.5"

Medium

Height: 37,2 cm / 14.5"
Length: 88 cm / 34.5"
Width: 51,5 cm / 20.25"

Small

Height: 37,2 cm / 14.5"
Length: 68 cm / 26.75"
Width: 44 cm / 17.25"

Half Size

Height: 37,2 cm / 14.5"
Length: 44 cm / 17.25"
Width: 39,5 cm / 15.5"

MATERIALS

Tabletop is made from plywood with a matt FENIX nanotech laminate finish. Frame is made from 8mm powder coated solid steel.

PROCESS

The metal frame is welded and soldered very accurately to create the light and skinny silhouette of the frame. The tabletop is cut and plywood is finally polished.

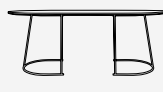

COLORS

Tabletop/base: Black (Nero Ingo O720/RAL 9011), Grey (Beige Arizona O748/RAL 7039) Off-White (Bianco Male OO29/RAL 7044), Plum (Rosso Jaipur O751/NCS S 8010 - Y9QR).

HALVES SIDE TABLE

by MSDS Studio

The Halves Side Table has a modern expression with interlapping planes and a high durability, thanks to the design being made from an acrylic stone composite. Use the design in a lounge setting, in the hallway or even as a bedside table.

DIMENSIONS

Diameter: 35,5 cm / 14"

Height: 47 cm / 18.5"

MATERIALS

Acrylic stone composite / resin. Water resistant surface.

PROCESS

Made from large casted sheets of acrylic stone composite, that are cut into shapes and welded together. Lastly, the surfaces are grinded and polished, giving the side table its soft feel and seamless joints.

COLORS

Grey.

TESTS

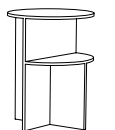

EN 15379:2016 - L3: Extreme use.

Furniture – Strength, durability and safety – Requirements for non-domestic tables.

COMPILE SHELVING SYSTEM

by Cecilie Manz

With a functional and modern appearance, the Compile Shelving System can be integrated into a multitude of interior spaces—whether the need is for an individual module or an entire wall of shelves, the Compile Shelving System brings a modern touch to any office, hospitality area or lounge setting.

DIMENSIONS

Shelves

Height: 14 cm / 5.5"

Depth: 42 cm / 16.5"

Width: 120 cm / 47.25"

Storage Surface per Shelf

Width: 115 cm / 45.25"

Depth: 40 cm / 15.75"

Dividers

Large dividers: 39 cm / 15.5"

Medium dividers: 28,5 cm / 11.2"

Small dividers: 18 cm / 7.1"

Top/Bottom Cylinders

Top cylinder height: 11 cm / 4.3"

Feet height: 11,6 cm / 4.6"

MATERIALS

Shelves and dividers: Powder coated steel.

Top and bottom details: Injection-molded plastic.

PROCESS

Shelves are made from laser cut steel sheets, bent to form, and then coated with high quality powder coating. This coating gives the shelves a matt, abrasion-resistant and fingerprint-insensitive surface.

COLORS

Grey (RAL 7044), Black (RAL 9011), White (RAL 9003).

OPTIONS & ACCESSORIES

Shelves, dividers and the essentials package can be purchased separately or pre-packed if ordering one of the 8 different pre-configured configurations. See options on next page.

TESTS

EN 16121:2013 – Test severity I.

Non-domestic storage furniture – Requirements for safety, strength, durability and stability.

EN 16122:2012 Domestic and non-domestic storage furniture.

Test method for the determination of strength, durability and stability.

Both tests were conducted using a 180 cm / 70.75" shelving configuration with wall brackets attached to the wall.

WEIGHT & HEIGHT RECOMMENDATIONS

The Compile Shelving System should always be mounted to a wall using wall brackets (included in the essentials pack). A Compile Shelving System can hold up to 300 kg / 661 lb. The Compile Shelving Systems can be built as tall as wanted, as long as it is mounted to the wall using wall brackets. Muuto recommends not building configurations higher than 2,25 meters / 88.5".

Depth: 35 cm / 13.75"

Podium

Height: 20 cm / 8"
Width: 131 cm / 51.5"
Depth: 35 cm / 13.75"

MATERIALS

Stacked modules and podium in PU lacquered MDF or oak veneer. Stacked clips in powder coated steel.

PROCESS

Every side is cut out of MDF, assembled and glued together. The light grey, dark grey and white modules are painted with three layers of PU lacquer.

COLORS (VERSIONS 2.0)

All modules: Oak, White (RAL 9016), Light Grey (NCS S 2000-N), Grey (NCS S 5502-B).

Medium models w/colored backboard: Oak/Light Grey (NCS S 2000-N), Oak/Dusty Green (Pantone 5625 C).

Clips: White (RAL 9016), Light Grey (NCS S 2000-N), Grey (NCS S 5502-B), Dusty Green (Pantone 5625 C).

STACKED CLIPS (VERSIONS 2.0)

Each module comes with either 2 white clips (white modules), 2 light grey clips (oak and light grey modules) or 2 grey clips (grey modules). Additional clips and clips in other colors can be purchased separately.

TESTS

All shown pre-configured options are tested according to: EN 16121:2013 – Test severity 2.

Non-domestic storage furniture – Requirements for safety, strength, durability and stability.

EN 16122:2012

Domestic and non-domestic storage furniture – Test method for the determination of strength, durability and stability.

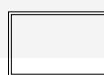

MAX. WEIGHT AND HEIGHT

Max. weight of 25 kg / 55.1 lb per module or 12 kg / 26.5 lb if mounted on wall.

Max. 6 modules on top of each other. Max. height: 285 cm / 112.25"

CONFIGURATION INSTRUCTIONS

The modules should always be either wall mounted or connected with 2 Stacked Clips per module - one on each side - and so the individual modules in the configuration are connected to ensure the overall stability of the system.

34 MODULES TO CREATE YOUR SOLUTION

Arrange and rearrange the Stacked Modules to create the storage system that you'd like, whether it be as shelving setups, sideboards, bookcases or side tables. A Stacked solution is never final and can always be rearranged or enriched with more modules by using the small clips to fasten together the modules for a stabile storage solution. Choose from modules that are open, have backboards or doors. Place the modules directly on the floor or on a Stacked podium.

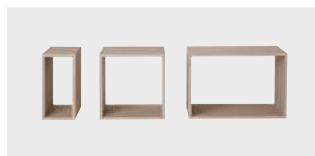

Visit stackedconfigurator.muuto.com to create your own storage solution or explore our prearranged configurations on pp. 98-99.

REFLECT SIDEBOARDS AND DRAWER

by Søren Rose Studio

A furniture series of sideboards and a drawer that hints towards Scandinavian craftsmanship. When hit by light, the curved surfaces of the front panels effortlessly reflect the light along the visible wood grains. Reflect is perfect for any space in need of a bit of craftsmanship along with a Scandinavian touch.

DIMENSIONS

Large Sideboard

Length: 179,8 cm / 70.75"
Depth: 40 cm / 15.75"
Height: 69,4 cm / 27.25"
Leg height: 27 cm / 10.5"

Small Sideboard

Length: 105 cm / 41.25"
Depth: 40 cm / 15.75"
Height: 69,4 cm / 27.25"
Leg height: 27 cm / 10.5"

Drawer

Length: 74 cm / 29"
Depth: 42 cm / 16.5"
Height: 100 cm / 39.5"
Leg height: 27 cm / 10.5"

MATERIALS

Board with veneer in oak. Solid oak legs.

PROCESS

Boards with layers of oak veneer is cut out and glued together. The fronts are CNC cut with oak veneer on top. Finally, the wood is treated with oil.

COLORS

Natural Oak, Black.

TESTS

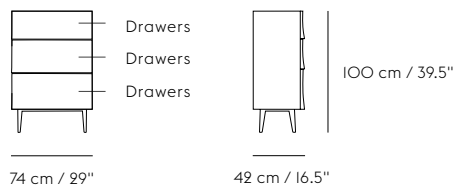

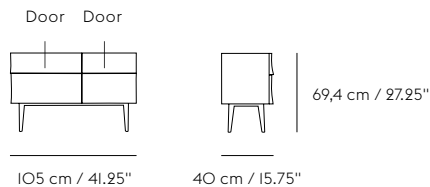

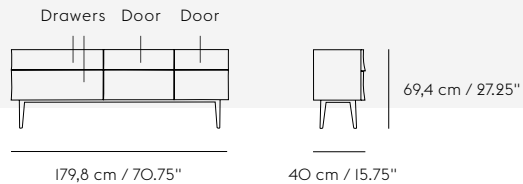

EN 16121:2013 - LI: General use.
Non-domestic storage furniture – Requirements for safety, strength, durability and stability.

Please note that the Reflect Drawer is not available for sale in North and South America.

GRAIN PENDANT LAMP

by Jens Fager

The Grain Pendant Lamp is made from a bamboo fiber composite, lending the design an elegant, matte surface. The small-sized pendant works well on its own, in rows or clusters. The lamp is equipped with a high-quality LED light bulb that has an average life-span of 15,000 hours. The bulb has a low energy consumption that imitates a natural light.

DIMENSIONS

Height: 18,5 cm / 7.25"

Diameter: 21 cm / 8.25"

Cord length: 400 cm / 13'1"

MATERIAL

The lamp shade is made of bamboo fibers and polypropylene. Rubber cord.

PROCESS

The lamp shade is made under high pressure casting. Shade and electrical components are assembled by hand.

COLORS

Black (Nearest match RAL Design 000 70 00), Grey (Nearest match RAL Classic 7004), Nature (Nearest match RAL Design 070 40 30), Dusty Green (Nearest match RAL Design 160 50 15).

SPECIFICATIONS (EU VERSION)

Interchangeable LED G9 3,5 W bulb with an average life span of 15,000 hours. Ceiling cap included. Lumen: 320lm. Kelvin 3100K.

AMBIT RAIL LAMP

by TAF Studio

The sharp silhouette and simple form of the shade makes the Ambit Rail Lamp a timeless design. The shade is made from old brazier traditions, press spun by hand, polished and hand-painted. The joints and cables are hidden while supporting wires are remarkably thin, making the lamp float seamlessly in the air.

DIMENSIONS

Height: 20 cm / 8"
Width: 126 cm / 49.5"
Diameter: 25 cm / 9.75"
Cord length: 400 cm / 131"
Wire: 350 cm / 11' 5"

MATERIALS

Ambit Rail Lamp is made from cast and extruded aluminum. Shades are spun aluminum with rubber cord and steel wires.

PROCESS

Made from old brazier traditions, the lampshades are press spun by hand. Hereafter, the lampshades are polished and painted by hand. The rail is cut from tubes that are adjusted to fit each other on a lathe machine.

UNDER THE BELL PENDANT LAMP

by Iskos-Berlin

Created from a material that uses a recycled plastic felt, this eye-catching lamp creates a smaller space within the environment. The Under The Bell's shade improves the acoustics of a space by absorbing noise. The design is a great match for any space in need of acoustic enhancement and modern design, whether it be large public spaces, restaurants or educational settings.

DIMENSIONS

Ø55 / 21.7"

Height: 31 cm / 12.2"

FLUID PENDANT LAMP

by Claesson Koivisto Rune

The Fluid Pendant Lamp is inspired by a resting drop of water. The organic shape gives a soft appearance, enhanced by the frosted glass and diffused light. The lamp can be hung as a single feature over a table, or mixed in clusters of both dimensions to create a unique light setting for any lounge space or restaurant setting.

DIMENSIONS

Small

Height: 14,3 cm / 5.5"
Diameter: 23 cm / 9"
Cord length: 350 cm / 11'5"

Large

Height: 27 cm / 10.5"
Diameter: 42 cm / 16.5"
Cord length: 350 cm / 11'5"

MATERIALS

White silk matt opal glass, lid in Nylon 66 with fiber glass.
White plastic ceiling cap with wire.

PROCESS

The lamp shade is made of mouth blown glass, which is frosted silky matte. The edge on top of the lamp is grinded and polished.

FRAMED MIRROR

by Anderssen & Voll

DIMENSIONS

Small

Length: 59 cm / 23.25"

Width: 44 cm / 17.25"

Depth: 4 cm / 1.5"

Large

Length: 118 cm / 46.5"

Width: 44,5 cm / 17.5"

Depth: 4 cm / 1.5"

MATERIAL

Powder coated steel. Mirror glass sheet.

PROCESS

A steel plate is worked through three rounds to shape the mirror's frame. The surface is then powder lacquered using a highly durable acrylic lacquer. Lastly, mirror glass is gently installed to create the little gap between the mirror's frame and mirror glass.

COLORS

Rose, Grey, Taupe.

PEBBLE RUG

by Margrethe Odgaard

126

DIMENSIONS

170 x 240 cm / 5'6" x 7'9"

200 x 300 cm / 6'6" x 9'8"

MATERIAL

Rug: 60% New Zealand wool, 40% Jute.

Backing: 100% cotton (canvas) pasted with synthetic latex which ensures that the rug lays smoothly on the floor.

PROCESS

Wool is dye colored and rugs are woven by hand. To create the loop pile pattern that gives Pebble Rug its tactile structure, the thick wool fiber yarn is wrapped around a special rod during weaving for an even and precise loop effect. This special handloom technique integrates the loop piles harmoniously into the flatweave base of the rug, created from jute fibers.

COLORS

Pale Rose, Burnt Orange, Light Grey, Dark Grey.

TESTS

US Flammability I6 CFR part I630 / I631.

STANDARD OPTIONS

Pale Rose, Burnt Orange, Light Grey, Dark Grey.

PLY RUG

by Margrethe Odgaard

DIMENSIONS

85 x 140 cm / 33.5" x 55.1"
170 x 240 cm / 5'6" x 7'9"
200 x 300 cm / 6'6" x 9'8"

MATERIAL

100% New Zealand wool.

PROCESS

Wool is dye colored and rugs are woven by hand.

COLORS

Rose, Dark Grey, Off-White, Yellow, Black/White, Burnt Orange, Midnight Blue.

ACCESSORIES

A rug pad to place under the rug to prolong the rug's lifespan and prevent it from gliding. Purchased separately.

QUALITY & ENVIRONMENT

CRAFTING HIGH-QUALITY DESIGN

At Muuto, we place the highest importance on being able to deliver high-quality products. To ensure this, continuous testing is at the heart of our design and development process. We source our raw materials with the greatest care and view sustainability as an integral part of our Scandinavian design ethos.

As part of our Scandinavian heritage, we place extensive emphasis on craftsmanship while valuing the functional, long-lasting properties of our designs. Our suppliers have been selected with the utmost consideration with only those living up to our high standards being handpicked to work with Muuto. The majority of our textiles, used for upholstery, are certified with the EU ecolabel. We also work to keep up with relevant national standards, e.g. in accordance with the British standard BS 5852 and the California Technical Bulletin 117E while many of our lamps are UL certified.

OUR SOCIAL RESPONSIBILITY

At Muuto, our ambition is to add new perspectives to Scandinavian design—something that often prompts us to work with innovative materials that lessen our impact on the environment. Take the Restore Basket and Under The Bell Pendant Lamp, both made using recycled PET bottle fibers as well as our Fiber Chair Family, created with a bio-composite shell that is made of up to 25% wood fibers. Being a Scandinavian design company, wood appears in many of our designs. Here, we strive to use Scandinavian wood types such as oak, beech, pine and ash—all of them being sorts that are non-endangered, sourced from sustainably managed forests.

Our products are designed to last which in itself eases their impact on the environment. We view responsible manufacturing processes as integral to our design philosophy. We work to ensure that all our manufacturers are socially responsible and operate with the highest of ethical standards. Our manufacturers and suppliers adhere to the United Nations principles of human rights, anti-corruption and non-use of child labor, as outlined in the United Nations Global Compact.

YOUR GUARANTEE OF HIGH QUALITY PRODUCTS

All Muuto designs have undergone extensive testing and are produced in accordance with ethical guidelines and environmental requirements. Our furniture is tested in accordance with the latest European and international standards and regulations.

MATERIALS & CARE

At Muuto, we put an immense amount of time and care into producing items that are made to last. By following a few simple care procedures, you can preserve the design in great condition for years to come.

ALUMINUM

Aluminum's malleability makes it a grand fit for highly detailed, durable Muuto products, bringing a light, airy feel to robust designs. Our aluminum products are powder-coated for a durable and sturdy finish. Clean the aluminum on a regular basis using a clean and damp cloth with a mild solution of detergent.

ASH

Ash is a key material in Scandinavian furniture. We use the naturally bright, oiled ash wood to bring a light sentiment into our designs. The material is used in all of our colored furniture designs as ash is easily curved and shaped while being an excellent surface for lacquering, giving the vibrant colors a long lifespan. Color lacquered and oil ash wood should be cleaned on a regular basis with a damp, clean cloth. Remove stains using a mild mixture of water and detergent. Avoid surface contact with sharp objects as these can leave scratches in the wood and lacquer.

COTTON

Our throws are made from 100% cotton that has been dyed and woven by hand. Cotton is a natural material that is strong and hardwearing while also being easy to clean. Our cotton products can be machine washed at 30°C / 80°F. Wash separately to prevent color changes.

LAMINATE

The laminate used in our designs is partly made from melamine resin; one of the hardest synthetically produced organic materials that has the ability to make a surface highly resistant towards scratches and natural wear. For regular care, clean the laminate surface with a damp, clean cloth. Remove stains using a mild mixture of water and detergent.

LEATHER

We work with some of Europe's leading leather suppliers to ensure that the leather used in our designs is of the highest possible quality. All leather used in Muuto products has been sourced from either Scandinavian or European cattle.

ANILINE LEATHER

Aniline leather is the purest, most natural leather with only around 15% of all leathers satisfying the requirements for being classified as aniline leather. The leather shows the natural features inherently found in animal hide with slight variations of the material giving a distinct, personal character. The leather has a natural expression with a soft, warm feel. Our Refine Leather is an aniline leather quality with a smooth, soft surface. The leather is untreated which gives it a slightly darker fade over time.

SEMI-ANILINE LEATHER

Semi-aniline leather is a full grain leather with a light top finish. The treatment of the surface makes the leather more durable. Semi-aniline leather is very soft and pliable with a high level of comfort. Our Easy Leather and Endure Leather are both semi-aniline leathers. We recommend using Endure for contract projects and public environments due to its high durability.

Natural leather does not perform well in dry air and sunlight. As a precautionary measure, we recommend to place leather upholstered furniture away from direct sunlight and refrain from having them in highly air-conditioned rooms as this can make the leather fade or dry out. Regular care of the leather helps maintain its inherent qualities and prolong the lifespan of the surface. Clean the leather with a dry cloth or soft brush. Treat and moisturize the leather four or more times a year using only special leather treatment products for aniline and semi-soft leather products.

LINOLEUM

Linoleum consists of linseed oil, wood flour and resin. The result is a silky matte look, adding a tactile dimension to the surface of a tabletop. Linoleum can be cleaned on a regular basis with a clean, damp cloth. Remove stains using a mild mixture of water and detergent. It is recommended to treat the surface with a linoleum polish 2-3 times a year.

OAK

Oak is a traditional Scandinavian material with durable abilities against factors such as water and fungi, giving it long-lasting properties fit for furniture. Our products in lacquered oak veneer should be cleaned on a regular basis with a damp, clean cloth. Remove stains using a mild mixture of water and detergent. Designs in solid oak, tabletops in particular, should be kept clean using a damp cloth on a regular basis while stains should be removed with a mixture of water and detergent. For long-term care, it is recommended that oak tabletops are treated with a special oak wood oil 2-3 times a year, making the wood resistant to stains and fluids.

OREGON PINE

Oregon pine is a wood type that is softer than ash and oak, meaning that it is less robust and durable. Over time, the surface color of the wood will be slightly altered when exposed to light and indoor climates.

POLYMER FELT

Polymer felt is a special composite material, made of two materials: PET and polyester. PET is partly made from recycled plastic bottles. Clean the polymer felt by vacuuming it on a regular basis. Remove stains with a clean, damp cloth.

STEEL

The steel that we use for our designs is either painted with a powder coating or chrome plated for a durable and sturdy finish. The chrome quality used for our designs is a chrome 3 variant that is both stainless and robust. Clean both powder coated and chrome steel surfaces on a regular basis using a clean, damp cloth. Remove stains using a mild texture of water and detergent.

TEXTILES

The textiles used for Muuto products are supplied by four different companies: Danish Kvadrat and Swedish Nevotex along with both Arve and Fiderfessile from Italy. The companies that we work with have been selected on the basis of their extensive knowledge within the field and state-of-the-art material qualities. For cleaning textiles at home, remove non-grease stains by carefully dabbing with a lint-free cloth or sponge that has been wrung out in warm water. If necessary, clean by dabbing with soapy water. Finally, dab the surface with clean water. For all Kvadrat upholsteries, please see Kvadrat.dk for further cleaning and maintenance instructions for your chosen textile.

WOOD FIBER & PLASTIC COMPOSITE

We use an innovative wood and plastic bio-composite material for our Fiber Chair Series. In fact, the material was uniquely developed for the Fiber Chair Series. With the shell consisting of up to 25% wood fibers, it has a distinct warm, matte texture that stands in complementary contrast to the light surface of the plastic. Small color variations may occur due to the natural properties of the wood fiber. For regular cleaning, use a clean, damp cloth. Remove stains using a mild mixture of water and detergent.

WOOL

Our rugs are made from New Zealand wool, a natural material that is easy to clean and preserve. All rugs are woven by hand. We recommend having your wool products dry-cleaned to avoid damaging the product. For regular cleaning at home, gently vacuum clean the wool rugs. Clean stains instantly with sparkling water. We also offer a rug pad that will reduce wear and tear, keep the rug from sliding and ensure that it lays smoothly on the floor.

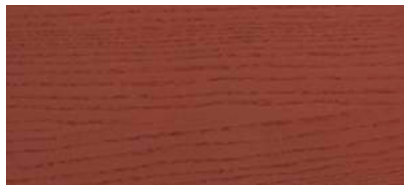

MATERIAL TEXTURES

At Muuto, we use an expanded breadth of materials to express our ideas of new perspectives on Scandinavian design. Working with leading suppliers across the world, we strive to use materials that embody our quality standards to provide designs that'll pass the test of time and bring a modern touch to any space at one and the same time. Explore the various textures of materials that are used throughout the Muuto universe.

LEATHER OPTIONS

At Muuto, we work with some of the leading European leather suppliers to ensure that the leather used for our designs is always of the highest possible standard. Our leather options range from the Refine Leather, a modern and sleek full-grain leather with a soft touch, over Easy Leather, a semi-aniline leather with a soft and waxy feel along with a matte look, to our Endure Leather, a pliable and extremely durable semi--aniline leather ideal for contract environments, and the Faux Leather, being particularly suitable for healthcare and education environments as it is resistant to disinfectants.

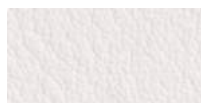

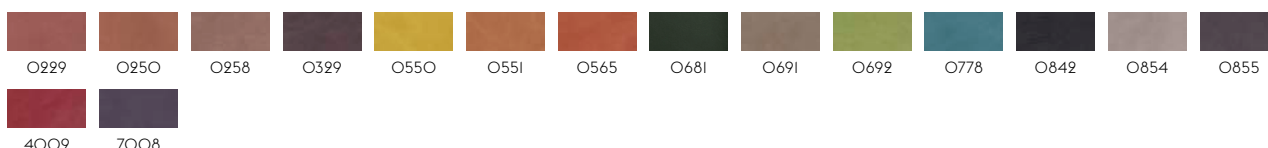

REFINE LEATHER

Aniline Leather.

Raw material: Grain leather from European raw hides. The leather is dyed through, chrome tanned and produced without the use of PCP and CFC which can be damaging to the environment.

O197

ENDURE LEATHER

Semi-aniline leather with high durability, making it ideal for contract environments.

Raw material: Leather from Scandinavian raw hides.

The leather is dyed through using a chrome free tanning process. Also available in custom colors in a minimum of 1 hide.

O0100

FAUX LEATHER

Imitation leather.

Composition: 85% PVC, 15% cotton. Durability: 75,000 Martindale.

Resistant to disinfectant which makes it suitable for Healthcare and Education environments. IMO certified.

Note that this product contains O,1 - O,2 % C,C'-azodi (formamide), CAS no. 123-77-3.

F6461664

EASY LEATHER

Semi-aniline Leather.

Raw material: Designed and processed in Italy. The leather is dyed through, chrome tanned and finishing is with resins and pigments.
