DESIGN: BÖTTCHER AND KAYSER

JOE is a series of soft, flexible seating furniture based on strong shapes, geometric curves, and clear lines. The centrepiece of the series is a circular pouf with slim legs. All seating elements are embraced by a light back wall that serves as a protective shell and creates comfort and privacy for relaxation or private conversations in hotel lobbies, lounge areas, libraries, or modern offices spaces. The soft backrest cushion provides maximum comfort. The family of seating poufs, sofas and armchairs are completed by a matching coffee table with the same floating appearance.

BASEL

DESIGN: BUSK + HERTZOG

Futuristic and fun
The clean lines and the simplicity of the design are striking, but a closer look reveals even more design details that give BASEL a very unique character. The lines of the seat are a fusion of several geometrical shapes that results in the unique shape that is both tight and soft at the same time. The characteristic backrest works as an integrated and discrete armrest and is an advanced 3-dimensional design element despite the minimalistic look.

CABALA

DESIGN: MÜLLER & WULFF

Arrange it your way.
CABALA is an intelligent module sofa program with
endless possibilities of arranging and grouping.

With a unique feature, the seat orientation can be
changed in an instant, and it's possible to create two
different seating directions at once – e.g. one to the
window and one to the fireplace, TV or art piece. You
simply push or pull the backrest gently to make it flip
to one side or the other. This integrated feature makes
it possible to sit on both sides of the base depending
on how the backrest is arranged.

This diversity makes CABALA perfect for hotels, mu-
seums, waiting areas and of course living rooms. The
round corners of the designs create a distinct look
with a modern edge, and the high-quality upholstery
details complete the look.

The CALETO chair is designed with a focus on creating an ergonomic backrest support that provides the best possible comfort in various seating positions and user scenarios.

The timeless design is clean and minimalistic and works well in many different environments, like the private dining room, by the desk at home or at the office, in meeting rooms or at restaurants. On the outside of the shell it looks like the upholstery moves in an inch on the lower part, and on the inside of the shell you can see how this detail is translated into a soft and round convex shape that adapts to your back and adds support to your lumbar region. This functional construction of the seat shell creates a light and airy overall appearance. The CALETO chair is available with four different base solutions.

The CALETO chair is designed with a focus on creating an ergonomic backrest support that provides the best possible comfort in various seating positions and user scenarios.

The timeless design is clean and minimalistic and works well in many different environments, like the private dining room, by the desk at home or at the office, in meeting rooms or at restaurants. On the outside of the shell it looks like the upholstery moves in an inch on the lower part, and on the inside of the shell you can see how this detail is translated into a soft and round convex shape that adapts to your back and adds support to your lumbar region. This functional construction of the seat shell creates a light and airy overall appearance. The CALETO chair is available with four different base solutions.

OPERA TABLE

With the addition of a table for the OPERA series, even more functions and possibilities have been added to the flexible and versatile family. The table's design matches the softly rounded corners of the upholstered furniture, and the dimensions of the table top harmonise with the back and sides of the seating furniture. Combined with the OPERA partition wall, intimate and informal meeting rooms can be created. The new table is an important supplement to any group arrangement of the OPERA series' seating furniture with both high and low backrest.

OPERA WALL

DESIGN: BUSK + HERTZOG

The OPERA collection, which already consists of sofas, armchairs, poufs and a modular system in a number of sizes and variations, has been extended with a partition wall in the same timeless, compact and international design language. With the addition of the partition wall, it is now possible to create smaller areas that are enclosed and shielded, creating a private and defined space that can serve as a room in the room for meetings or for working undisturbed in peace. The partition wall allows for entirely new ways of using and combining the OPERA elements in public spaces, as they connect seamlessly with the OPERA seating elements. This allows you to easily add the partition walls when needed – and efficiently move and store them, as they take up minimal space when not in use.
