Sitzbock.

When people engage with each other spontaneously and informally, this can serve as a source of inspiration, innovation, and change.

Facilitating a change of perspective that looks beyond job roles and hierarchies requires refreshing design ideas like the Sitzbock pommel horse seat, which inspires both the body and the mind to try something different. You can sit astride, “ride side saddle,” or use it to lean on. Made from through-dyed polypropylene in four colors and weighing just 4.8 kg (101/2 lbs), the seats are easy to place in groups, stack crosswise or pick up and take outside for a while. Anyone preferring a little more comfort can add a non-slip felt “saddle blanket” to their Sitzbock.

Design: Rudolph Schelling Webermann

Design: Rudolph Schelling Webermann

Function
A pommel horse seat weighing just 4.8 kg that's ideal for informal interaction in kitchenettes, bistros and workshops and enables a range of different postures: users can lean on it, sit side saddle or position themselves astride it.

Body/frame
Four-leg seat made of through-dyed polyethylene in black, white, grey or orange-red with non-slip multipurpose glides. Also suitable for temporary use in outdoor rooms. Up to four Sitzbock pommel horse seats can be stacked across one another.Optional felt blanket in anthracite, a light mottled hue, graphite or mango with a rubber underside which is attached with ten expanding rivets.

Please note:
can be used outdoors. When exposed to ultra violet rays for long periods of time, the colours of plastics can change slightly. Felt is a natural product. Therefore, there can be differences in the colour. These differences are not a justified reason for complaint but underscore the material's uniqueness.

Subject to change.
