LAK

HOOGGLANSLAK

De elegante stoel 118 van Sebastian Herkner krijgt een chique afwerking: zes sprekende hoogglanskleuren geven deze stoel een luxe uitstraling. Bij daglicht ontstaan bovendien bijzondere lichtreflexen die de eenvoud en elegantie van ontwerp nog beter tot hun recht doen komen. Lak heeft objecten altijd al iets bijzonders gegeven: “Lak belichaamt verleden, cultuur en stijl en geeft een object diepte”, aldus Sebastian Herkner. De verschillende kleuren en de hoogglans afwerking maken stoel 118 tot een eyecatcher in elke ruimte.

Hoogglans oppervlakken zijn bijzonder kwetsbaar voor invloeden van buitenaf als klinknagels van broeken, stoten en dergelijke. Op glanzende oppervlakken zijn dergelijke gebruikssporen duidelijker te zien, wat als storend ervaren kan worden. Daarom raden we aan om voorzichtig met deze stoel om te gaan en hem niet te gebruiken in de kantoor- en projectinrichting.
Bij beschadiging van het oppervlak kan geen aanspraak worden gemaakt op schadevergoeding.

CLASSICS IN COLOUR

Het is de nieuwste woonmodetrend: meubels met kleurig gelakte frames. Ook Thonet heeft enkele stalen buisklassiekers in een kleurig jasje gestoken en ze daarmee een eigentijdse interpretatie gegeven. Settafel B 9 (design: Marcel Breuer), Freischwinger S 43 (design: Mart Stam) en enkele andere klassiekers zijn vanaf nu verkrijgbaar in vier kleuren: zwart, wit, tomaatrood en warmgrijs.

Er is een ruime keus aan materialen en oppervlakken, zodat u uw meubelstuk een individueel tintje kunt geven dat bij uw interieur past.

Op papier kunnen de kleuren van de originele materialen slechts bij benadering worden weergeven, lichte kleurafwijkingen zijn mogelijk. Wijzigingen voorbehouden.

THONET DUR

Fluweelzacht en spiegelglad – het hoogwaardige oppervlaktemateriaal ThonetDur® zorgt voor een bijzondere zintuiglijke beleving. Het oppervlak voelt prettig soepel aan en heeft een mooie zijdematte uitstraling. Bovendien biedt het hoge bescherming van uw houten Thonet-meubelen en zorgt zo voor een lange levensduur. De 1,2 mm dikke HPL-plaat is, anders dan gebruikelijk bij dit materiaal, door en door geverfd. ThonetDur® is verkrijgbaar in de uitvoeringen Cool White, White en Deep Black. Het kantstuk is zowel verkrijgbaar met deze HPL-plaat als ook in geolied walnoot of eiken.

HPL-PLAAT

HPL-plaat is een duroplastproduct dat bestaat uit meerdere papierbanen. Deze worden met hars geïmpregneerd en bij hoge temperatuur onder hoge druk tot een homogene plaat geperst. In melaminehars gedrenkt papier en een transparante deklaag zorgen voor een stootbestendig, krasvast en slijtbestendig oppervlak. Andere eigenschappen zijn de bestendigheid tegen hitte, licht en chemicaliën. Bovendien is het materiaal desinfecteerbaar.

HPL-platen zijn gemakkelijk in het onderhoud. De volkernplaten hebben een zichtbare zwarte rand.
Op aanvraag verwerken we ook HPL-plaat Fenix.

De materialien zijn verkrijgbaar in veel verschillende kleuren; hier ziet u slechts een kleine selectie. De afgebeelde kleuren kunnen licht afwijken van de originele materialen en stoffen. Wijzigingen voorbehouden.

POLYPROPYLEEN

Dit materiaal is bijzonder goed bestand tegen chemische stoffen. De lichtechtheid bedraagt 7 – 8. Polypropyleen kan volledig worden gerecycled en probleemloos als afval worden verbrand.

Vanaf een bestelhoeveelheid van 100 stuks zijn op aanvraag ook andere kleuren volgens RAL verkrijgbaar.

De afgebeelde kleuren kunnen licht afwijken van de originele materialen en stoffen. Wijzigingen voorbehouden.

STOFFEN

Thonet beschikt over een ruime collectie bijzondere stoffen voor zowel dewoning- als de projectinrichting. De kwalitatief hoogwaardige meubelstoffen worden ingekocht bij gerenommeerde producenten. Alle collecties zijn geschikt voor de projectinrichting en hebben een slijtvastheid van minimaal 25.000 toeren (Martindale-test).

De stoffen zijn verkrijgbaar in veel verschillende kleuren; hier ziet u slechts een kleine selectie. De afgebeelde kleuren kunnen licht afwijken van de originele materialen en stoffen. Wijzigingen voorbehouden. Voor de technische eigenschappen van de materialen verwijzen wij u naar de website van de fabrikant.

De stofgroepen verschillen in materiaal en prijs en zijn als volgt onderverdeeld:

Ingezonden stof:	**katoenprijs**
Stofgroep I	**Rivet, Step, Step Melange**
Stofgroep II	**Field 2, Main Line Flax, Remix 2, Revive 1, ThonetMed®, ThonetTec®**
Stofgroep III	**Credo, Mood, Novum, Soul**
Stofgroep IV	**Divina Melange 3, Hallingdal 65, Steelcut Trio 3**
Ledergroep II	**Maharam**

THONET MED

Het kunstleder ThonetMef® skai® Parotega NF is door zijn natuurlijke uitstraling en oppervlak nauwelijks van echt leder te onderscheiden. Het is verkrijgbaar in 40 kleurnuances. Dit hoogwaardige, bijzonder onderhoudsvriendelijke en sterke kunstleder voldoet aan bouwmateriaalklasse B1 en heeft de hoogste brandwerende eigenschappen. Hierdoor is het ideaal voor de inrichting van publieke ruimten, verzorgingstehuizen, seniorenresidenties en ziekenhuizen, sportstudio's en fysiotherapiepraktijken. skai® Parotega NF is bestand tegen desinfecterende middelen, bloed en urine.

Materiaal: 85% polyvinyl, ondergrond 15% katoen
Slijtvastheid: 75.000 Martindale
Brandwerende eigenschappen: DIN 4102-1 (Part 1, B1); DIN EN13507-1B; s3,d0; DIN 66084 P-a; NF M1, AM 18; BS5852 IS-0+1+5; DIN EN1021-1+2; DIN 4102-1(B2); FMVSS 302, FAR25.853; ÖNORM B3825 moeilijk ontvlambaar (B1); ÖNORM3800-1 Q1; UNI 9175/87 (1.IM)

Het pvc-vrije kunstleder ThonetTec® skai® Pureto EN heeft een bijzonder zacht, warm oppervlak dat aan kalfsleder doet denken. Het is verkrijgbaar in 12 decente kleuren. Vanwege zijn uitstekende technische eigenschappen en onderhoudsvriendelijke karakter is het bijzonder geschikt voor moderne kantoor-, hotel- en horeca-inrichtingen. Het veganistische imitatieleer wordt gemaakt van sterk polyurethaan op waterbasis. Het is oplosmiddelvrij, waardoor het een goed milieuvriendelijk alternatief is.

Materiaal: coating 60% polyurethaan, ondergrond 40% katoen/polyester
Slijtvastheid: 100.000 Martindale
Brandwerende eigenschappen: EN 1021-1-2; FMVSS 302
