arco

Belangrijke informatie

Website

Alle actuele productinformatie (beeldmateriaal, 2d/3d data, onderhoudsvoorschriften, materiaalmogelijkheden, stoffenlijst, etc.) is te vinden op www.arco.nl.

Standard en tailoring

Op iedere factsheet is aangegeven wat de standaardmaten van een product zijn en zo ja binnen welke kaders tailoring mogelijk is. Uitvoeringen die daarbuiten vallen, worden na aanvraag beoordeeld en slechts toegekend als deze onderdeel vormen van een grote order (> €50.000), of als er andere zwaarwegende belangen van toepassing zijn.

Bestelhulp

De bestelhulp wordt weergegeven onderaan ieder prijsblad. Deze geeft aan welke keuzes gemaakt moeten worden om de order zo volledig mogelijk in te sturen.

Matrix

Als er in de prijsmatrix bij een materiaal of afmeting geen prijs vermeld wordt, dan is deze uitvoering technisch niet mogelijk.

Orderbevestiging

De orderbevestiging wordt binnen een week na bestelling verzonden per e-mail. Mocht dit onverhoopt niet het geval zijn, dan verzoeken wij u ons dit te melden zodat de bestelling geen vertraging oploopt.

Het is van belang de orderbevestiging goed te controleren.

Naast de orderbevestiging ontvangt u van ieder besteld product een verkooptekening met daarop de afmetingen van het meubel. Graag wijzen wij u erop dat er op de genoemde maten een tolerantie geldt. Deze afwijking geldt voor zowel tafels, stoelen als kleinmeubelen.

Orderwijziging/annuleren

Het is van belang de orderwijziging goed te controleren. Het is mogelijk om binnen 7 dagen (5 werkdagen) na verzending per email de order te wijzigen of te annuleren. Na het verstrijken van deze termijn is de bevestiging bindend en zijn wijzigingen in de order niet meer mogelijk.

Levertijd

Arco produceert op aanvraag. Onze levertijd kan variëren en is afhankelijk van de orderportefeuille, de capaciteit en de beschikbaarheid van de benodigde materialen.

Geplande leverweek

Op de orderbevestiging geven wij een geplande leverweek aan. Deze leverweek is altijd onder voorbehoud van onze interne kwaliteit en eindcontrole.

Eigen stof

Het is mogelijk uw meubel te stofferen in een eigen stof. Dit is altijd op aanvraag en indien noodzakelijk na goedkeuring van een door u ingezonden stofstaal.

Het is niet mogelijk uw meubel in een eigen leer te laten stofferen!

De order wordt pas in behandeling genomen en bevestigd zodra de ingezonden stof ontvangen is op het volgende adres:

Arco Meubelfabriek B.V.
Parallelweg 2-III
7102 DE Winterswijk

Op de verpakking dient duidelijk uw firma naam met ordernummer en/ of commissienaam vermeld te zijn. Verschillende commissies mogen niet bij elkaar in één verpakking aangeleverd worden.

Tafelonderstellen fineer

Massief hout en duramas kunnen naast P- of N-lak ook met olie afgewerkt worden. Fineer kan uitsluitend met lak afgewerkt worden.

Dit heeft als gevolg, dat tafelmodellen waarbij het blad in massief hout of duramas is uitgevoerd, maar een onderstel in fineer hebben, u wel een olie afwerking voor het blad kunt kiezen, maar voor het onderstel een beitskleur dient aan te geven (dit geldt specifiek voor: Balance, Enso, Essential, Extend, HAT, Kami Wood en Spazio). De finish van het bebeitste onderstel is dan altijd P-lak.

Houten onderstellen zitmeubelen

De houten onderstellen van onze zitmeubelen zijn uitsluitend leverbaar met een N- of P-lak afwerking (poten in olie zijn dus niet mogelijk).

Gerookt eiken

Een gerookt eiken blad krijgt standaard een 1300 oak black onderstel, een andere beitskleur is echter ook mogelijk. Dit dient u op de order aan te geven. Er zijn twee uitzonderingen: Base en Joist. Deze onderstellen worden ook gemaakt van gerookt eiken. Duramas gerookt eiken is niet leverbaar met een olie afwerking.

Borstelen

Borstelen is mogelijk voor massieve en duramas bladen (met een lakafwerking) tot een maximale breedte van 128 cm.

Vloerglijders/wielen

Zitmeubelen worden altijd geleverd met vloerglijders voor zowel harde vloeren als tapijt. De wielen zijn geschikt voor beide ondergronden.

Verkoopvoorwaarden

Op al onze overeenkomsten zijn de algemene verkoopwaarden van de Centrale Bond van Meubelfabrikanten van toepassing, gedeponeerd ter griffie van de Arondissementrechtbank te Amsterdam, 16 maart 2018 onder nummer 9/2018. Een kopie hiervan kan aangevraagd worden.

Ordertoeslag

Voor order met een netto factuur-waarde tot € 750,- brengen wij een ordertoeslag van € 60,- netto in rekening.

Het is niet mogelijk achteraf orders te combineren om deze kosten te voorkomen. U kunt wel zelf de orders gecombineerd insturen.

Materialen

De weergegeven afbeeldingen dienen slechts als indicatie van de kleur.

Hout

Hout is een natuurlijk materiaal en geen boom is hetzelfde. Elk houten meubel is een natuurlijke weergave van het specifieke hout waarvan het gemaakt is en heeft zijn eigen, unieke houtbeeld. Daarom kunnen er, ondanks onze zorgvuldige selectie, verschillen in structuur of kleur optreden. Denk hierbij aan lokaal lichte of juist donkere verkleuring, die vaak pas na verwerking zichtbaar wordt.

Het is voor hout essentieel het vochtgehalte op peil te houden. Om het 'werken' (krimpen en uitzetten) van het hout zoveel mogelijk te voorkomen, adviseren wij om de relatieve luchtvochtigheid in de ruimte zo constant mogelijk te houden (ca. 60%). Ook de temperatuur dient zo constant mogelijk gehouden te worden.

Hout verkleurt onder invloed van (zon)licht en neemt na een paar maanden zijn definitieve kleur aan. Daarom dienen in het geval van uitschuifbare tafels ook de inlegbladen gedurende deze maanden in het licht geplaatst worden. Daarna kunnen ze opgeborgen (losse inlegbladen) of ingeschoven worden (geïntegreerde inlegbladen).

Omdat hout verkleurt onder invloed van (zon)licht en na een paar maanden zijn definitieve kleur aanneemt zullen nabestelde meubelen ook nooit een gelijke kleur hebben.

Massief hout (Arco premium quality)

De bladen van de massieve tafels zijn opgebouwd uit aan elkaar verlijmde massieve houtstroken van wisselende breedtes. De tafels kunnen worden afgewerkt met mat-naturel lak (hierna N-lak), project-lak (hierna P-lak) of met olie. Natuurlijke kenmerken van het hout, zoals noesten, vergroeiingen, zwarte pitjes etc. zijn onvermijdelijk. Bij premium quality massief hout mogen open gebreken echter nooit in het zicht zitten (maar mogen bijvoorbeeld wel aan de onderkant van het tafelblad voorkomen). Massief hout is bijzonder gevoelig voor schommelingen in temperatuur en luchtvochtigheid. Het hout kan dan gaan "werken", waardoor op termijn kleine kop- en droogscheurtjes kunnen ontstaan.

Massief hout (Local Wood)

Local Wood is hout uit de regio rondom de fabriek van Arco in Winterswijk. Bij Local Wood worden eventuele "imperfecties" van het hout niet verbloemd. Noesten maken veelal deel uit van het tafelblad en geven het daardoor een eigen karakter. Deze noesten zijn echter nooit open, maar worden gestopt.

Duramas (semi-massief)

Duramas is opgebouwd uit een dunne laag premium quality massief hout dat aan de boven- en onderzijde van een dragend kernmateriaal (bijvoorbeeld populier) verlijmd wordt. Hierdoor ontstaat een uiterst stabiele sandwich constructie. Het voordeel van Duramas is dat er zuinig omgesprongen wordt met hoogwaardig hout, waarbij de toplaag wel stevig genoeg is om – net als massief hout – af te schuren en opnieuw te oliën of te lakken. Duramas is gevoelig voor schommelingen in temperatuur en luchtvochtigheid. Het materiaal kan gaan "werken", waardoor kleine krimpscheurtjes kunnen ontstaan

Fineer

Het gebruik van fineer – een dun laagje hout gelijmd op een kern van plaatmateriaal – is zeer duurzaam, omdat er bij het produceren van een tafel slechts weinig grondstof gebruikt wordt van een schaars product, maar toch de warme uitstraling en tactiliteit van echt hout blijft bestaan. Een bijkomend voordeel is, dat fineer niet of nauwelijks "werkt" (krimpt of uitzet). Arco gebruikt een speciale methode waarbij de vellen fineer gespiegeld worden, zodat de patronen in het hout optisch doorlopen en er een gelijkmatig houtbeeld ontstaat.

Afwerkingen

Beitskleuren

Onze eikenhouten meubelen (zowel massief hout als duramas en fineer) kunnen in verschillende kleuren gebeitst worden. Beitsen is een techniek waarbij er kleur op het hout wordt aangebracht, terwijl de houtstructuur wel goed zichtbaar blijft. Gebeitst hout kan naar keuze afgewerkt worden met N-lak of P-lak. Afwerking met olie is niet mogelijk.

Gerookt eiken

Eikenhout bevat tannine, hetzelfde stofje dat rode wijn en zwarte thee 'droog' maakt. Deze stof reageert met ammoniak-dampen die tijdens het droogproces in de droogkamer worden verspreid. Hierdoor kleurt het hout 'door en door'. De concentratie tannine bepaalt de verkleuring. Deze concentratie wordt beïnvloed door de bodemsamenstelling en het leefklimaat van de boom en kan dus sterk verschillen per

stam en zelfs in verschillende delen van dezelfde stam. Er zullen altijd kleurverschillen optreden in gerookt eiken. Het kleurbereik van gerookt eiken loopt van lichtbruin tot warm diepbruin en soms bijna zwart. Tevens wijzen wij erop dat het gerookte eiken dat wij voor onze tafels gebruiken geen premium quality massief hout is. Het kan daarom voorkomen, dat er natuurlijke kenmerken als noestjes, vergroeiingen, zwarte pitjes etc. zichtbaar zijn in het tafelblad. Gerookt eiken kan afgewerkt worden met N- of P-lak en olie (alleen massief).

Geborsteld eiken (alleen massief hout en duramas)

Door het blad te borstelen ontstaat er reliëf tussen de hoogteverschillen en de zachtere- en hardere jaarringen. De diepte wordt beïnvloed door de natuurlijke eigenschappen van het hout: de dichtheid, dosse of kwartiers gezaagd en de structuur. Er zullen altijd variaties in 'diepte' of 'grofheid' zitten. In de 'zachtere' houtdelen zullen de groeven dieper zijn. Eventuele scheurtjes kunnen niet gestopt worden en zullen dus zichtbaar blijven. Wanneer een product uit de Local Wood collectie op deze manier wordt afgewerkt, zullen wittige vlekken, noesten, kleurverschillen en alle andere natuurlijke eigenschappen van het 'Local Wood' zichtbaar blijven. Geborsteld eiken kan uitsluitend afgewerkt worden met een N- of P-lak.

Olieafwerking voor massief hout en duramas

In vergelijking met gelakte massieve of duramas tafels komt bij tafels met olieafwerking de natuurlijke uitstraling van het hout nóg beter tot zijn recht. Tafels met deze afwerking zijn echter wel wat gevoeliger voor vlekken en vocht en vergen daarom onderhoud. De Arco massieve en duramas tafels zijn behandeld met een hoogwaardige 'master'olie. Deze olie is samengesteld op basis van uitsluitend ecologisch verantwoorde grondstoffen. De olie verzorgt en beschermt het hout.

Lakafwerking voor fineer, duramas en massief hout

Voor de afwerking van onze meubelen worden lakken toegepast die voldoen aan de hoogste kwaliteitseisen. Er is keuze uit twee verschillende lakafwerkingen: N-lak of P-lak. De twee verschillende lakafwerkingen bieden een uitstekende bescherming van het hout.

De N-lak geeft het hout een bijzonder matte uitstraling.

De P-lak geeft het hout een lichte glans. In vergelijking is deze lak iets minder vlekgevoelig en daardoor iets gemakkelijker te onderhouden.

Lakkleuren

Een deel van onze meubelen kan in kleur gelakt worden. Bij (gefineerde) tafelbladen en poten wordt de kleurlak dekkend op essenfineer aangebracht, waarbij de houtstructuur echter zichtbaar blijft. Lakkleuren zijn niet toepasbaar op massief houten tafels.

Voor onze kastenprogramma's Vision Modules en Vision Selected geldt, dat de kleurlak op een MDF ondergrond aangebracht wordt, waardoor een glad oppervlak ontstaat.

Laminaten

HPL Fenix® NTM

Voor het FENIX® NTM-oppervlak is gebruik gemaakt van nanotechnologie. Het oppervlak wordt verkregen met behulp van de nieuwe generatie harsen die zijn ontwikkeld door Arpa Industriale. Dankzij deze technologie beschikt FENIX NTM® over geavanceerde eigenschappen: een extreem mat oppervlak dat zacht aanvoelt, bescherming biedt tegen vingerafdrukken en een thermisch herstel van oppervlakkige krasjes. Daarnaast valt dit innovatieve materiaal op door specifieke eigenschappen die het reinigen vergemakkelijken en geen bijzonder onderhoud vereisen.

Forbo Furniture Linoleum

Furniture Linoleum is een biobased, natuurlijk materiaal dat wordt geproduceerd in Nederland. Furniture Linoleum laat geen vingerafdrukken achter, is antistatisch en een prettige ondergrond om op te schrijven.

Het materiaal is 'levend', vormt in het gebruiken een patina (net als leer) en heeft een aantal bijbehorende kenmerken. Denk hierbij aan kleine markeringen, deukjes of glanzende strepen.

Metalen

Aluminium

Aluminium is een materiaal dat zich gemakkelijk laat gieten. De aluminium onderstellen worden in de gewenste vorm gegoten en afgewerkt. Aluminium is onderhoudsarm, biedt een grote vormvrijheid en is een lichtgewicht materiaal.

Ambachtelijk gegoten aluminium

Voor de productie van het onderstel van de Joist en de Trestle heeft Arco gekozen voor een ambachtelijk gegoten onderstel (zandgieten en Coquille-gieten). Bij deze productietechniek wordt het aluminium met een kroes uit een smeltoven geschept en vervolgens in de matrijs (gemaakt uit zand of metaal) gegoten.

Door de snelle stolling in de matrijs ontstaat een fijnkorrelige structuur, vergelijkbaar met de huid van een sinaasappel. Kenmerkend voor deze techniek is dat er op het oppervlakte kleine gaatjes zichtbaar zijn. Ook is het mogelijk dat er ondiepe strepen of kleine bobbeltjes op het oppervlakte voorkomen. Deze kenmerken zijn inherent aan dit gietproces.

Afwerking: Epoxy

Epoxy is een thermohardende kunststof die hecht aan vrijwel iedere ondergrond. Daarnaast is epoxy slijtvast en onderhoudsarm. Het toepassen van epoxy op metaal is een zeer bestendige oppervlaktebehandeling en biedt ruime mogelijkheden in kleurgebruik. We hebben verschillende epoxykleuren in onze collectie.

Afwerking: Chroom

Chroom is een bestendig oppervlaktemateriaal dat goed bestand is tegen krassen. Bij een onderstel afgewerkt in chroom wordt een laagje chroom aangebracht op metaal.

Afwerking: Aluminium

Wij bieden onze aluminium stoelonderstellen zowel geborsteld als gepolijst aan. Optisch gezien geeft het geborstelde aluminium het product een wat zachtere uitstraling dan gepolijst aluminium.

Beton

Beton is samengesteld uit het bindmiddel cement met water en toeslagmaterialen zoals grind en zand. Door het samenvoegen van de juiste hoeveelheden ontstaat een steenachtig en duurzaam materiaal met een grote vormvrijheid. Beton heeft een robuuste uitstraling en is een ideaal materiaal voor het stabiel maken van een tafel.

Textiel

Onze zitmeubelen zijn leverbaar in vele stoffen van verschillende fabrikanten. Wij werken onder andere met Kvadrat (http://kvadrat.dk), De Ploeg (www.deploeg.com), Gabriel (www.gabriel.dk/en/), Camira (www.camirafabrics.com) en Maharam (https://www.maharam.com).

Voor onze actuele stoffenlijst raadpleeg onze website: www.arco.nl/downloads

Leder

Arco leergroepen b en d

Aniline leder is wel voorzien van een beschermlaag, maar is niet volledig afgedekt. Door deze manier van afwerken blijven de natuurlijke kenmerken van het leder zo goed mogelijk behouden. In het gebruik zal het leer zijn eigen karakter krijgen. Dit karakter wordt vooral bepaald door de typische glans (patina) die het leer na verloop van tijd krijgt.

Semi-aniline en gedekverfd leder

Deze leersoorten zijn niet alleen gekleurd, maar zijn tevens voorzien van een afwerklaag die de natuurlijke eigenschappen gedeeltelijk afdekt. Door deze afwerklaag ontstaat een gebruiksvriendelijk oppervlak.

De weergegeven afbeeldingen dienen slechts als indicatie van de kleur.

Onderhouds-voorschriften & Garantie

Algemeen

Wij raden u aan om het meubel, voordat u het in gebruik neemt, te reinigen met een vochtige doek (indien nodig met het meegeleverde schoonmaakmiddel van ZO schoon) om de eventuele nog aanwezige stofresten te verwijderen. Het verdient aanbeveling ook de onderkant van de poten te reinigen. Mocht het meubel op een gereinigd tapijt geplaatst worden dan moet het tapijt volkomen droog zijn.

Harde (krassen!), hete (krimpen!) of natte (vlekken!) voorwerpen dienen nooit direct op een tafel gezet te worden. Hierdoor ontstaan beschadigingen die niet meer te verwijderen zijn. Het gebruik van onderzetters wordt daarom aangeraden.

Een aantal van onze producten heeft demontabele delen; mocht er door droogte of door gebruik ruimte in de verbindingsconstructie ontstaan, draai dan de bouten of moeren van de constructie weer aan.

Tot slot wijzen wij u nogmaals op het feit dat hout een natuurlijk materiaal is. Zo ontstaat, onder invloed van (zon)licht, de uiteindelijke kleur van het hout tijdens het gebruik (vraag uw dealer om uitleg en advies). Voor een gelijkmatige verkleuring is het wenselijk eventuele inlegbladen, gedurende de eerste maanden, ook in het licht te plaatsen. Heel belangrijk voor de conditie van het hout is het handhaven van een zo constant mogelijke relatieve luchtvochtigheid (ca. 60%), zodat uitdroging van het hout (krimp!) vermeden wordt.

Hout

<u>Hout (fineer, massief, duramas) met N- of P-lak en meubelen met kleurlak</u>

Onze lakken hebben een uitvoerige vlekkentest ondergaan, maar het blijft toch verstandig om vlekken zo snel mogelijk te verwijderen om langdurige inwerking te voorkomen en de optimale uitstraling van het oppervlak te behouden.

Onze watergedragen N- en P-lak hebben een zelfde samenstelling en om die reden ook een zelfde onderhoudsadvies:

(Dagelijks) schoonhouden met een katoenen doek. Vlekken verwijderen met een vochtige doek of met ZO Alles Schoon uit het meegeleverde onderhoudspakketje. Hardnekkige vlekken raden wij aan te behandelen met ZO Keuken Schoon, een krachtiger ontvetter, te verkrijgen via: www.zoschoon.nl.

Als de reiniger even kan inwerken, krijg je het beste resultaat: De reiniger weekt vuil los en met de doek neem je het weg. Altijd goed nareinigen met schoon water om het gebruikte schoonmaakmiddel te verwijderen (het oppervlak echter niet te nat maken). Tenslotte goed droogmaken. Altijd in de richting van de houtnerf werken. Gebruik nooit was, washoudende middelen of middelen met een schurende werking.

<u>Massief hout en duramas met transparante olie afwerking</u>

Voor het dagelijks onderhoud is het afnemen van de tafel met een droge doek of, indien nodig, met lauwwarm water voldoende. Wij raden aan om gemorste vloeistoffen direct te verwijderen. Om de warme, natuurlijke glans van het hout te behouden en het hout zo goed mogelijk te beschermen tegen inwerking van (vloei)stoffen dient u de tafel regelmatig met olie te behandelen (gemiddeld twee keer per jaar). Hiertoe sluiten wij een speciaal onderhoudssetje, met o.a. een flesje olie, bij (de olie dun opbrengen op een schone, droge tafel, goed verdelen en met een droge doek nawrijven). Ook kunt u een goede kwaliteit teakolie gebruiken (voor gebruiksaanwijzing: zie de verpakking of bijsluiter van het product).

Een regelmatige behandeling van uw tafel met olie garandeert een goede verzorging en bescherming van het hout en een lange levensduur van uw tafel. Lichte krassen en vlekken kunnen door uzelf weggewerkt worden. Dit kan met regulier schuurpapier met zeer fijne korrel, waarmee u eerst het tafelblad licht opschuurt. Het is belangrijk dat u het hele blad opschuurt (dus niet alleen de plek van de vlek of kras) en altijd in de richting van de houtnerf werkt.

Behandel het tafelblad na het opschuren weer met (teak)olie. Het gebruik van bijtende schoonmaakmiddelen of schuurmiddelen is absoluut niet toegestaan.

Massief hout en duramas met witte olieafwerking

Voor het dagelijks onderhoud is het afnemen van de tafel met een droge doek of, indien nodig, met lauwwarm water voldoende. Wij raden u aan om gemorste vloeistoffen direct te verwijderen. Om het hout te beschermen tegen krasjes en de inwerking van (vloei)stoffen dient u de tafel enkele malen per jaar met witte olie te behandelen. Hiertoe sluiten wij een flesje met witte olie bij. Breng de olie dun aan met een schone, pluisvrije doek en laat het een paar minuten inwerken. Vervolgens met een schone doek nawrijven. Probeer altijd eerst op een onopvallende plek.

Let op: tafel niet schuren!

Gerookt eiken

Zie onderhoud voor massief hout en duramas met de betreffende afwerking (transparante olie (alleen massief), P- of N-lak).

Geborsteld eiken

Zie onderhoud voor massief hout en duramas met de betreffende afwerking (P- of N-lak). Echter in de 'naden/groeven' kan wel sneller vuil of vocht achterblijven die kunnen 'inwerken'. Het advies is daarom om vocht en vuil snel weg te nemen.

Laminaten

HPL Fenix NTM®

Voor het dagelijks onderhoud volstaat het om het oppervlak af te nemen met een vochtige doek met warm water en eventueel milde schoonmaakmiddelen. Bij hardnekkig vuil raden wij het gebruik van aceton aan. Oppervlaktekrasjes kunnen door wrijving met een wonderspons worden weggepoetst. Door de warmte die tijdens het wrijven ontstaat, sluiten de moleculen zich, waardoor de krasjes zullen verdwijnen.

Forbo Furniture Linoleum

Voor dagelijks onderhoud adviseren wij om het oppervlak af te nemen met een vochtige doek met warm water. Eventueel met milde schoonmaakmiddelen (ZO Schoon of een pH neutrale zeep). Altijd goed nareinigen met schoon water om het gebruikte schoonmaakmiddel te verwijderen. Laat daarna het oppervlak goed drogen.

Belangrijk: Gemorste vloeistoffen onmiddellijk verwijderen (o.a inkt, koffie, thee, rode wijn). Voorkom hardnekkige vlekken (kringen) en krassen door scherpe producten; gebruik onderzetters voor kopjes, glazen, vazen enz. met een zachte onderzijde.

Metalen

Afwerking: Epoxy

Schoonhouden met een zachte, droge doek en eventueel een sopje.

Afwerking: Chroom

Wrijven met een zachte, pluisvrije, droge doek of schoonmaken met een sopje volstaat. Eventueel licht bevochtigen met spiritus. Eens per jaar inwrijven met zuurvrije vaseline.

Afwerking: Gegoten aluminium

Zie chroom. Bij de voeten kunnen oppervlakkige krassen worden verwijderd met een sopje in combinatie met een scotch brite schuursponsje. Werk altijd in de polijstrichting.

Beton

Voor het onderhoud van beton, zie 'Hout (fineer, massief, duramas) en kleurlak met P-lakafwerking'.

Textiel

Houd het meubel stofvrij door middel van een zachte borstel of stofzuiger (met een zachte borstelopzet). Gebruik een schuimmiddel om het meubel schoon te maken. Voor specifieke vlekken zijn in dit kort bestek moeilijk aanwijzingen te geven, dit verschilt per type vlek en stof. Voor het behandelen van vlekken verwijzen wij u naar www.james.eu/nl/vlekken-verwijderen. Voor alle middelen geldt: eerst voorzichtig op een niet direct zichtbare plek proberen. De middelen nooit overvloedig gebruiken om doorlopen van de kleur te voorkomen en de schuimrubber onderlaag niet aan te tasten.

Leder

Aniline leder (lederkwaliteiten uit leergroep b en leergroep d)

Voor het behoud van het leder dient men het leder regelmatig met een zachte droge doek af te nemen. Het aniline leder dient eenmaal per jaar met een leder beschermmiddel voor vol-aniline leder behandeld te worden. Let op! In het geval van morsen is het noodzakelijk dat de vloeistof direct opgedept wordt (niet wrijven). Voor onderhoudsproducten voor leer verwijzen wij u graag naar www.ohmannleather.com.

Semi-aniline en gedekverfd leder

Voor het behoud van het leder dient men het leder regelmatig af te nemen met een droge doek of zachte borstel of indien nodig met een vochtige doek. Het is raadzaam om het leder twee maal per jaar met een leervoedend middel te behandelen. Voor onderhoudsproducten voor leer verwijzen wij u graag naar www.ohmannleather.com.

Garantie

Elk Arco meubel is vervaardigd van bijzonder hoogwaardige materialen en wordt met de grootst mogelijke zorg geproduceerd. Het meubel verlaat onze fabriek na een zorgvuldige eindcontrole. Mochten zich desondanks materiaal- of fabricagefouten voordoen, dan draagt Arco bij in de kosten van vervanging of reparatie volgens onderstaand schema:

Gebruiksjaren bijdrage Arco
(in procenten van de kosten)

0-1	100 %
1-2	80 %
2-3	60 %
3-4	40 %
4-5	20 %

Als voorwaarde stellen wij hierbij uitdrukkelijk dat onze onderhoudsadviezen correct zijn opgevolgd. Voorts dient er sprake te zijn van normaal huishoudelijk gebruik. Gebreken die zijn ontstaan door onoordeelkundig gebruik zijn van garantie uitgesloten.

In dit kader wijzen wij u nogmaals op het feit dat hout een natuurlijk materiaal is. Zo ontstaat, onder de invloed van licht, de uiteindelijke kleur van het hout eerst tijdens het gebruik (vraag uw dealer om uitleg en advies). Voor een gelijkmatige verkleuring is het wenselijk eventuele inlegbladen, gedurende de eerste maanden, ook in het licht te plaatsen. Heel belangrijk voor de conditie van het hout is het handhaven van een zo constant mogelijke relatieve luchtvochtigheid (ca. 60%), zodat uitdroging van het hout (krimp!) vermeden wordt.

Een beroep op de Arco garantie dient plaats te vinden binnen de garantieperiode, die ingaat op de dag van aflevering aan de eerste eigenaar of ten laatste 30 dagen na aflevering van Arco aan de Arco dealer.

U, als dealer, kunt uit hoofde van uw klant aanspraak maken op garantie of een service melden door het sturen van een email aan onze service afdeling (service@arco.nl) onder vermelding van:
– ons ordernummer
– een beschrijving van de klacht
– foto's die het defect tonen

Specifieke uitsluitingen

1. Normale slijtage en beschadigingen vallen niet onder de garantie.

2. Schades ten gevolge van
oneigenlijk gebruik of een onjuist onderhoud zijn uitgesloten van garantie.

3. Indirecte schades die het gevolg zijn van een eventueel defect, zoals inkomstenderving e.d., zijn tevens uitgesloten van de garantie.

4. Reparaties aan het meubel en/of het bekledingsmateriaal zonder schriftelijke toestemming van Arco, hebben uitsluiting van de garantie tot gevolg.

5. Stoelen: de Arco garantiebepalingen gelden niet voor bekledingsstoffen die niet tot de standaard Arco collectie behoren (de zgn. 'ingezonden materialen').

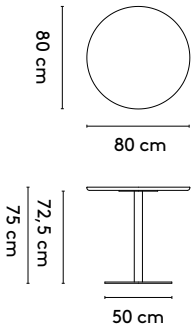
product | designer | year

1 **Enso** | Arco Design Studio | 2025

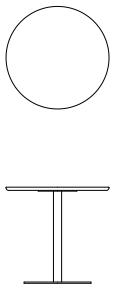
2a **Standard**

Enso Round 1 (veneer base)



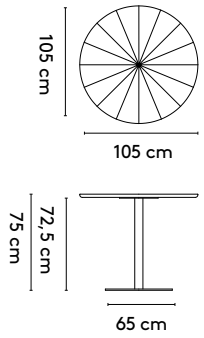
Ø 70 x 65/75/105H cm (base Ø 45)
Ø 80 x 65/75/105H cm (base Ø 50)
Ø 90 x 65/75/105H cm (base Ø 50)
Ø 105 x 65/75H cm (base Ø 60)

Enso Round 2 (epoxy base)



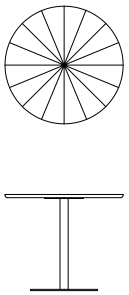
Ø 110 x 75H cm (base Ø 65)
Ø 120 x 75H cm (base Ø 65)
Ø 128 x 75H cm (base Ø 70)

Enso Round 3 (veneer pattern)



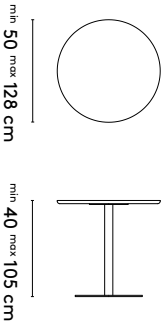
Ø 105 x 75H cm (base Ø 65)
Ø 120 x 75H cm (base Ø 65)
Ø 128 x 75H cm (base Ø 70)

Enso Round 4 (veneer pattern & epoxy base)

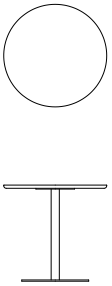


2b **Tailoring**

Enso Round 1 (veneer base)



Enso Round 2 (epoxy base)



a table top with a diameter larger than 90 cm only has a maximum height of 75 cm

3 **Materials**

Top: oak or walnut (solid, veneer, veneer pattern)
Column: oak or walnut (veneer) on aluminum
Base: oak or walnut (veneer, veneer pattern) on steel, epoxy fine texture on steel

Materialen

Blad: eiken of noten (massief, fineer, fineer patroon)
Kolom: eiken of noten (fineer) op aluminium
Voet: eiken of noten (fineer, fineer patroon) op staal, epoxy fine texture op staal

Materialien

Platte: Eiche oder Nussbaum (Massiv, Furnier, Furnierbild spezial)
Säule: Eiche oder Nussbaum (Furnier) auf Aluminium
Fuss: Eiche oder Nussbaum (Furnier, Furnierbild spezial) auf Stahl, Epoxy fine texture auf Stahl

4 **Finishes**

Enso 1 & 2:
All Arco colors and finishes for the mentioned materials

Enso 3 & 4: Only available in oak veneer 1000 pure & 1100 natural or walnut veneer 1000 pure.
Base only available in veneer pattern & epoxy fine texture on steel

Please note:
For an oiled tabletop (solid wood only), the veneered column and/or base is only possible with a P-lacquer finish.

Afwerkingen

Enso 1 & 2:
Alle Arco kleuren en (lak)afwerkingen voor de genoemde materialen

Enso 3 & 4: Alleen mogelijk in eiken fineer 1000 pure & 1100 natural of noten fineer 1000 pure.
Voet alleen mogelijk in fineer patroon & epoxy fine texture op staal

Let op:
Bij een geolied blad (alleen bij massief) is de gefineerde kolom en/of voet alleen mogelijk met een P-lak afwerking

Ausführungen

Enso 1 & 2:
Untergestell in einer anderen Farbe Epoxy fine texture (Arco Farbe) möglich

Enso 3 & 4: Nur erhaltlich in Eiche Furnier 1000 pure & 1100 natural oder Nussbaum Furnier 1000 pure.
Fuss nur in Furnierbild spezial und Epoxy fine texture auf Stahl

Bitte beachten:
Bei einer geölten Tischplatte (nur bei Massivholz) ist die furnierte Säule und/oder der Fuß ausschließlich mit einer P-Lack-Ausführung möglich.

advies verkoopprijzen excl. BTW Nederland

1 Enso

5 **Additional information**

Enso 1: veneer column, veneer base
Enso 2: veneer column, epoxy fine texture base
Enso 3: veneer column, veneer pattern top, veneer pattern base
Enso 4: veneer column, veneer pattern top, epoxy fine texture base

Enso > 105 with an epoxy base is 2 cm smaller than the veneered base variant.

The wooden base is susceptible to damage under intensive use. For those situations, we recommend the base in epoxy fine texture.

To maintain the table's quality, we advise against placing it on a wet or damp surface, as moisture cannot escape and may cause damage to the floor.

Please note: we cannot provide a guarantee or accept claims for usage damage to the base (for example caused by chair legs). However, we do offer a refurbish service.

Aanvullende informatie

Enso 1: fineer kolom, fineer voet
Enso 2: fineer kolom, epoxy fine texture voet
Enso 3: fineer kolom, fineer patroon blad, fineer patroon voet.
Enso 4: fineer kolom, fineer patroon blad, epoxy fine texture voet.

Enso > 105 met epoxy voet is 2 cm kleiner dan fineer voet variant

De houten voetplaat is gevoelig voor beschadigingen bij intensief gebruik. Voor die situaties adviseren wij de voetplaat in epoxy fine texture.

Voor het behoud van de kwaliteit adviseren wij de tafel niet op een natte of vochtige ondergrond te plaatsen, omdat vocht niet kan ontsnappen en schade aan de vloer kan veroorzaken.

Let op: wij kunnen geen garantie geven of claims accepteren op gebruiksschade aan de voetplaat (bijvoorbeeld veroorzaakt door stoelpoten). Wel bieden wij een refurbish service aan.

Weitere Informationen

Enso 1: Furnier Säule, Furnier Fuss
Enso 2: Furnier Säule, Epoxy fine texture Fuss
Enso 3: Furnier Säule, Furnierbild spezial Platte, Furnierbild spezial Fuss
Enso 4: Furnier Säule, Furnierbild spezial Platte, Epoxy fine texture Fuss

Enso > 105 mit Epoxid-Fuß ist 2 cm kleiner als die furnierte Fußvariante.

Die Holzfußplatte ist bei intensiver Nutzung anfällig für Beschädigungen. Für solche Situationen empfehlen wir die Fußplatte in Epoxy fine texture.

Um die Qualität des Tisches zu erhalten, empfehlen wir, den Tisch nicht auf einen nassen oder feuchten Untergrund zu stellen, da Feuchtigkeit nicht entweichen kann und den Boden beschädigen kann.

Bitte beachten Sie: Wir können keine Garantie geben oder Ansprüche auf Gebrauchsschäden an der Fußplatte akzeptieren (zum Beispiel verursacht durch Stuhlbeine). Wir bieten jedoch einen Refurbish-Service an.

EVOline® One spot
Ø 5,9 cm

CM08/CM09
cable-net
small / large

CM24
Fabric cable support
14 x 16 cm

6 **Additional information**

Please specify length of charging cable:
Short charging cable: if the table is above an electrical point.
Long charging cable: if the table is not above an electric point.

Only WCD and USB charger spots are possible with the HAT.

Aanvullende informatie

Specifieer lengte van kabel:
Korte kabel: als de tafel boven een elektra-punt staat.
Lange kabel: als de tafel niet boven een elektra-aansluiting staat.

Alleen WCD en USB charger spots zijn mogelijk bij de HAT.

Weitere Informationen

Bitte spezifizieren Sie die Länge des Kabels:
Kurzes Kabel: wenn der Tisch über einem elektrischen Anschluss steht.
Langes Kabel: wenn der Tisch nicht über einem elektrischen Anschluss steht.

Es gibt nur WCD- und USB-Ladestationen mit dem HAT möglich.

6 **Additional information**

The Move 2 is equipped with castors with brakes

The Move triangular 1 and Move triangular 2 are stackable. It is possible to stack these tables up to a maximum of six pieces

Depending on the configuration of the Move table, multiple legs can converge in one place. Furthermore, we cannot guarantee that every leg is 100% perpendicular. Small deviations are part of any handcrafted product. For this reason, each leg turns slightly inward. The flatness (or otherwise) of the floor may also play a role in perceived deviations

Aanvullende informatie

De Move 2 is voorzien van wielen met rem

De Move triangular 1 en Move triangular 2 zijn stapelbaar. Het is mogelijk deze tafels te stapelen tot een maximum van zes stuks

Bij de Move tafel komen afhankelijk van de configuratie veel poten bij elkaar op één plek. Wij kunnen niet garanderen dat alle poten van de Move tafels altijd 100% haaks staan. Kleine toleranties zijn onderdeel van het product. Om die reden is de positie van de poot iets naar binnen gezet. Tevens worden de tafels op verschillende manier gecombineerd waardoor eventuele verschillen elkaar de ene keer opheffen en de andere keer juist kunnen vergroten. De vlakheid van vloer speelt hierin ook een rol

Weitere Informationen

Der Move 2 ist mit bremsbaren Rollen ausgestattet

Der Move triangular 1 en Move triangular 2 sind stapelbar. Es ist möglich, diese Tische bis zu sechs zu stapeln

Je nach Konfiguration des Move-Tisches können mehrere Beine an einer Stelle zusammenkommen. Wir können auch nicht garantieren, dass jedes Bein zu 100 Prozent senkrecht steht. Kleine Abweichungen gehören zu jedem handgefertigten Produkt. Aus diesem Grund ist jedes Bein leicht nach innen gedreht. Auch die (Un-)Ebenheit des Bodens kann zur Wahrnehmung von Abweichungen beitragen

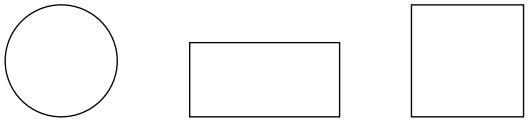
we can offer (tailored) cut outs for cable management solutions outside Arco's collection

we can only accept an order with cut out if we receive a drawing with the dimensions and desired position along with the order confirmation, we will send our drawing with the dimensions for checking and approval of the cut out

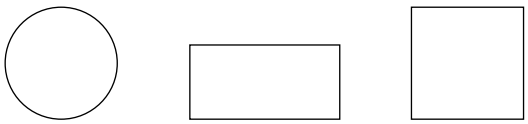
2 **Standard**

CM18 (for all tables except Slim(+) family)



circle rectangular square

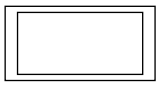
CM19 (for Slim(+) family)



circle rectangular square

(max. cut out dimension: 560mmx110mm)

CM20 (for all tables except Slim(+) family)



cut out for built-in modules from e.g. Bachmann (possibly also with extra mounting holes)

3

Materials	Materialen	Materialien
-	-	-

4

Finishes	Afwerkingen	Ausführungen
-	-	-

5 **Additional information**

For non-solid tables, the inner core and unfinished edges will become visible.
We recommend taking this into account in the design, for instance by applying an 3mm cover edge.
Splintering as a result of the cut out may not be a reason for rejection of the table.

For CM20, please note:
built-in modules must be installed and connected on site by a qualified electrician

Aanvullende informatie

Bij niet-massieve tafels worden de binnenkern en onafgewerkte randen zichtbaar.
Wij raden aan om hier in het ontwerp rekening mee te houden door bijvoorbeeld een kraag van 3 mm aan te brengen.
Splinters als gevolg van de uitsnede mogen geen reden zijn voor afkeuring van de tafel.

Voor CM20, let op:
ingebouwde modules moeten ter plaatse worden geïnstalleerd en aangesloten door een gekwalificeerde elektricien

Weitere Informationen

Bei Tischen, die nicht aus Massivholz bestehen, werden der Kern und die unbearbeiteten Kanten sichtbar.
Dies sollte beim Entwurf berücksichtigt werden, z. B. durch das Anbringen eines 3 mm breiten Rahmens.
Splitter, die beim Ausschnitt entstehen, sind kein Grund zur Reklamation des Tisches.

Zu beachten bei CM20:
Einbaumodule müssen vor Ort von einer Elektrofachkraft installiert und angeschlossen werden.

Informatie

De meeste zitmeubelen van Arco zijn verkrijgbaar in een groot aantal stof- en leersoorten. Bijna alle stoffen van Kvadrat, Febrik en De Ploeg zijn geschikt voor onze stoelen (uitgezonderd Home-Work).

De prijsindeling van veelvuldig toegepaste stoffen en de Arco leer collectie vindt u terug in onze stoffenlijst.

Mocht de gekozen stof hierin niet vermeld staan, dan kunt u contact opnemen met onze binnendienst. In verband met de verwerkbaarheid van de stof kan er gevraagd worden een staal toe te sturen om te bepalen of een stof wel of niet geschikt is.

Orders waarvoor u de stof zelf instuurt, worden pas verwerkt en bevestigd op het moment dat wij de stof hebben ontvangen.

Voor leer geldt, dat er behalve uit de Arco leercollectie, gekozen kan worden uit de Ohmann 1012 en 1010 collectie. Bij deze kwaliteiten geldt dan een minimum afname van 4 stoelen in dezelfde uitvoering.

Zie www.arco.nl/downloads voor de meest actuele stoffenlijst. Deze is als apart document te downloaden

Belangrijke informatie

In deze stof- en leerlijst vindt u een groot aantal stoffen van verschillende leveranciers ingedeeld in stof- en leergroepen.

COM

Mocht de stof die u geselecteerd heeft met uw klant hier niet tussen staan, dan is het mogelijk uw meubel te stofferen in een eigen stof (COM). Dit is altijd op aanvraag en indien noodzakelijk na goedkeuring van een door u ingezonden stofstaal. (Het is niet mogelijk uw meubel in een eigen leer te laten stofferen)

Wij zullen de order in behandeling nemen en bevestigen tegen de op dat moment geldende levertermijn, zodra de ingezonden stof ontvangen is op het volgende adres:

Arco Meubelfabriek B.V.
Parallelweg 2-III
7102 DE Winterswijk

Wilt u uw firmanaam en uw order en commissienaam op de verpakking vermelden?

Stuurt u voor meerdere commissies stof in? Gelieve deze dan niet bij elkaar in een verpakking aan te leveren, omdat wij de stoffeerder dan niet kunnen informeren welke stof voor welke commissie bedoeld is.

Op het prijsblad van het betreffende zitmeubel is beschreven hoeveel stof er per stoel / bank benodigd is (punt 5. Aanvullende informatie). Bij het berekenen van de benodigde hoeveelheid stof is uitgegaan van een uni-kleurige stof, met een breedte van 130 cm.

Bij een aantal stoelmodellen is het mogelijk het meubel in een combinatie van verschillende stoffen, of stof/ leder te bekleden. Hiervoor rekenen we een meerprijs per zitplaats, waarbij we uitgaan van de prijs in de hoogste stofgroep.

Tot slot willen wij u erop wijzen het patroon van een stof de stoffering kan beïnvloeden. Niet iedere stof kan even mooi en goed verwerkt worden. Ronde vormen kunnen beter gestoffeerd worden met een materiaal met meer rek. Houdt u dus met de stofkeuze rekening met het model stoel / bank.

Twijfelt u of een stof geschikt is, neemt u dan contact op met onze verkoopbinnendienst.

Custom Design	**5**	**Minimum order 30 metres per design**

ByBorre produceert uitsluitend on-demand gebreide stoffen.

Voor stoffen uit de ByBorre collectie (Textile Room) worden voor meubelstoffering de kwaliteiten 3D en A03 geadviseerd.
Levertijd stof uit standaard collectie: ca 10 werkdagen
De levertijd van een custom stof is 4-6 weken. Dit heeft mogelijk invloed op de levertijd van uw meubelen.

5 **Additional information**

The Home-Work's cover can be replaced at the end of its lifespan. For this reason the upholstery requires more consistency to ensure that the cover fits with absolute precision. As a result we're only able to offer a limited number of fabrics. See point 3 on the price page

Home-Work J: castors by default black (with frames in oak carbon, black, morado, smoke, terra, burgundy, moss, ocean and dijon) or grey (with frames in oak pure, naturel and white, grey)

On request, the Home-Work J can be supplied with castors in different colors

Aanvullende informatie

De bekleding van de Home-Work kan aan het einde van de levensduur worden vervangen. Daarom vereist deze meer stevigheid, om ervoor te zorgen dat de hoes precies past. Als gevolg daarvan is een beperkt aantal stoffen mogelijk. Zie punt 3 op de prijspagina

Home-Work J: wielen standaard zwart (bij onderstel in oak carbon, black, morado, smoke, terra, burgundy, moss, ocean en dijon) of grijs (bij onderstel in oak pure, naturel and white, grey)

Op aanvraag kan de Home-Work J met de andere kleur wielen geleverd worden

Weitere Informationen

Der Bezug von des Home-Work kann am Ende seiner Lebensdauer erneut werden. Damit der Bezug passgenau sitzt, muss die Polsterung eine stabilere Konsistenz haben, und es kommt nur eine begrenzte Anzahl von Stoffen in Frage. Weitere Informationen siehe Punkt 3 auf der Preisseite

Home-Work J: Rollen Standard schwarz (bei Untergestell in Eiche carbon, black, morado, smoke, terra, burgundy, moss, ocean und dijon) oder grey (bei Untergestell in Eiche pure, naturel und white, grey).

Auf Anfrage kann der Home-Work J auch mit einer anderen Farbe der Rollen geliefert werden

type	Vision Selected 3
configuratie	B

1 **Vision Modules** | Karel Boonzaaijer & Pierre Mazairac | 1985

Informatie

Het Vision Module programma bestaat uit verschillende rompen, waarmee een veelheid aan staande of hangende kasten of landschappen kan worden samengesteld. Open of voorzien van een front, in 10 verschillende breedtes, 7 hoogtes en 2 dieptes.

Bestelinformatie & configurator:
Om een Vision Module kast of landschap samen te stellen, kunt u de Vision configurator gebruiken. Dat werkt sneller en overzichtelijker dan handmatig samenstellen met deze prijslijst, en de kans op fouten in uw bestelling is kleiner.

configurator.arco.nl/visionmodules/

Heeft u vragen of toelichting nodig? Neem dan contact op met vision@arco.nl.

Algemeen:
- Vision Modules is STIP gecertificeerd (mix van FSC / PEFC). (www.stip.org)
- De elementen zijn verkrijgbaar in kleurlak (Arco lakkleur / Ral kleur), in fineer (eiken of walnoot) of een combinatie van beide. De rugzijde van de corpussen zijn altijd wit
- Vision word afgewerkt met een P lak afwerking.
- Het frame wordt standaard geleverd in Epoxy Fine Texture RAL 9005 zwart, indien gewenst in een andere lakkleur (Arco lakkleur / Ral kleur) besteld worden.
- De binnenkant van de romp en de planken volgen de kleur van de buitenkant van de romp.
- Als de configuratie uit meerdere corpussen bestaat, geldt het volgende: als het aantal toegepaste kleuren gelijk / kleiner is dan het aantal corpussen, worden er geen extra kosten in rekening gebracht voor de kleurwijziging.
- Diverse Vision Module configuratie kunnen vrij in de ruimte worden geplaatst, hiervoor kan een afgewerkt achterwandpaneel besteld worden (zie: opties en accessoires).
- Vrijstaande kasten moeten aan de muur/vloer worden bevestigd (zie montagehandleiding)
- Bij het combineren van tafels en Vision Modules kunnen we niet exact dezelfde afwerking/kleur garanderen.
- Een kast configuratie bestaande uit meerdere kleuren / materialen, resulteerd in een meerprijs per kleur / materiaal

Custom Arco kleur	**€ 165**
Custom RAL kleur	**€ 205**

Constructie:
- De maximale belasting per compartiment, met een breedte van 54 of 72cm bedraagt 15kg. Bij een hogere of puntbelasting word een extra steunbalk geadviseerd, deze dient om puntbelasting te verdelen. De steunbalk word aan de binnenzijde van de kast gemonteerd (zie: opties en accessoires).

Toepassing van hoogwaardig meubelbeslag:
- Ladegeleider: TIP-ON BLUMOTION excl. synchronisatie van Blum
- Lade: TA'OR BOX van Hoecke NV
- Ophangsysteem: LIBRA H3 van Italiana Ferramenta

Bij een geolied blad is de gefineerde kolom en/of voet alleen mogelijk met een P-lak afwerking

Ausführungen

Alle Arco Farben und Ausführungen auf den Holzteilen

Bitte beachten Sie:
Bei einer geölter Platte ist die furnierte Säule und/oder Fuss nur mit P-lack moglich

5

Additional information

Enso H-Adjustable 1: Full veneer column
Enso H-Adjustable 2: half veneer column, half smooth bronze epoxy on steel

The wooden base is susceptible to damage under intensive use. For those situations, we recommend the base in epoxy fine texture.

To maintain the table's quality, we advise against placing it on a wet or damp surface, as moisture cannot escape and may cause damage to the floor.

Please note: we cannot provide a guarantee or accept claims for usage damage to the base (for example caused by chair legs). However, we do offer a refurbish service.

Delivery time on request

Aanvullende informatie

Enso H-Adjustable 1: Volledig fineer kolom
Enso H-Adjustable 2: half fineer kolom, half glad brons epoxy op staal

De houten voetplaat is gevoelig voor beschadigingen bij intensief gebruik. Voor die situaties adviseren wij de voetplaat in epoxy fine texture.

Voor het behoud van de kwaliteit adviseren wij de tafel niet op een natte of vochtige ondergrond te plaatsen, omdat vocht niet kan ontsnappen en schade aan de vloer kan veroorzaken.

Let op: wij kunnen geen garantie geven of claims accepteren op gebruiksschade aan de voetplaat (bijvoorbeeld veroorzaakt door stoelpooten). Wel bieden wij een refurbish service aan.

Levertijd op aanvraag

Enso H-Adjustable 1: Vollständig furnierte Säule
Enso H-Adjustable 2: halb furnierte Säule, halb glatte Bronze-Epoxy auf Stahl

Die Holzfußplatte ist bei intensiver Nutzung anfällig für Beschädigungen. Für solche Situationen empfehlen wir die Fußplatte in Epoxy fine texture.

Um die Qualität des Tisches zu erhalten, empfehlen wir, den Tisch nicht auf einen nassen oder feuchten Untergrund zu stellen, da Feuchtigkeit nicht entweichen kann und den Boden beschädigen kann.

Bitte beachten Sie: Wir können keine Garantie geben oder Ansprüche auf Gebrauchsschäden an der Fußplatte akzeptieren (zum Beispiel verursacht durch Stuhlbeine). Wir bieten jedoch einen Refurbish-Service an.
