A women's family history

Milani's story is a family tale, told from a feminine perspective.

It began in 1975 with Luigina Serafin — skilled, experienced, and quick tailor — who, together with her husband Rino Milani, opened a small upholstery workshop in Meolo, between Venice and Treviso, serving local furniture makers.

In 1997, Milani began producing its own line of seating, known for its attention to upholstery and padding. Today, the company is led by Luigina and Rino's three daughters — Nicoletta, Giuliana, and Francesca — who keep the original tailoring spirit alive, along with the feminine touch that has always defined the brand.

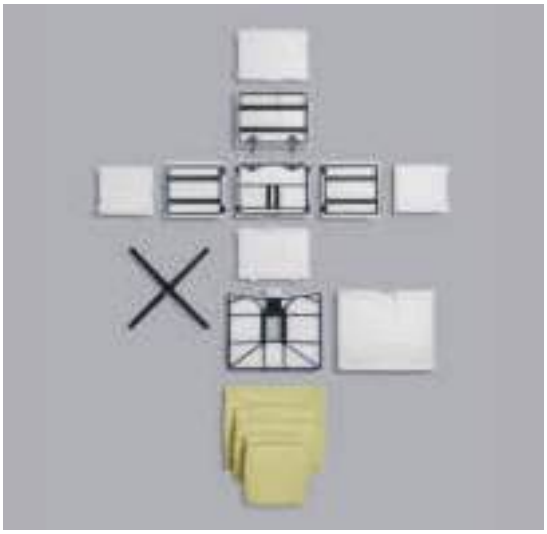
Milani is an Italian company that has been specializing in office and contract seating since 1975.

With upholstery in its DNA, the company has always stood out for its tailor-made approach, reflected in the meticulous care for high-quality fabrics, padding, and stitching.

For Milani, craftsmanship is more than a method, it's a value. It blends creativity and skill, inspiration and technique, resulting in unique collections that converse with contemporary design and offer the kind of comfort and softness usually reserved for home furnishings.

All Milani seating is manufactured or assembled in Italy by skilled artisans and workshops located near its headquarters in Meolo (Venice), where the design and style offices, a production line, logistics, and the company's standout upholstery department are based.

This short supply chain guarantees product quality, preserves valuable local expertise, and enables fast responses to architects' and interior designers' needs, including customized solutions and prototypes.



Milani has embarked on a journey to assess and improve its environmental and social sustainability.

Alongside the use of certified materials and recyclable and recycled fabrics, the company has developed two products designed to be 100% disassemblable — a model for future seating and a successful example of circular economy.

With female-led management and strong partnerships with local artisans and historic companies, Milani is a responsible enterprise with a positive impact on its community.

MILANI
Half a century
of design innovation

Terms and conditions of sale

Prices

The prices included in this price list exclude VAT. The prices can be modified at any time also in relation to changes of cost of manpower and/or raw materials. Our offers are valid for a period of 60 days starting from the date of offer, unless otherwise specified.

Orders

All orders are executed after approval from the Sales Office of Milani S.r.l., which reserves the right to issue a written statement of approval. The relations of sales stipulated by our agents are not brought to completion until our written approval. The customer's order approved by Milani S.r.l. can no longer be revoked or modified without Milani's authorization nor in any case after the 3rd day of reception of the order confirmation. Orders are dealt singularly; potential order additions will be dealt as complete new orders.

Delivery

The goods are sold Ex Works or DAP. In the case of DAP delivery, the goods are understood to be delivered on truck tailgate and with no access limitation to any truck transport means. It is the customer's responsibility to inform at the time of the order of any limitations concerning accessibility, permits and tolls as well as specific requests, such as:

- tail lift
- delivery to the floor / porterage
- disposal of packaging
- possible assembly of the products
- proof of delivery required.

If any of the above limitations occur, the additional fees will be charged to the customer at cost. In the event of events such as: pickup / empty delivery, request for redelivery, storage, any mandatory delivery requirements, the costs incurred by Milani S.r.l. will be charged to the customer at cost.

Shipments delayed beyond 10 days are placed in an external warehouse with an additional cost.

Depending on sales agreements, Milani S.r.l. requests a contribution fee if the overall value of a delivery note doesn't not reach a specific minimum value.

Lead times

The lead time for delivering the goods is written on the order acknowledgement. In unforeseen cases beyond our control, it is understood that the delivery time is extended up to 60 days, during which the customer has the right to back out of the contract, without claiming compensation on any grounds. Our company reserves the right to back out of a sales contract in foreseen cases by article 1461 c.c. Italian Law, and whenever facts are brought to our attention which cause the financial status of the customer to be suspicious, that is to say the ability to make payment within the given deadlines.

Minimum order

No minimum order is demanded. Nevertheless, the goods are shipped freight paid only for net orders above a defined amount. Below this amount a contribution for the freight will be asked to the client. The target amount as well as the contribution is to be defined with the sales representative.

Delivery

The goods are sold Ex works or delivered, based on the agreement with the client. By delivery with freight paid it is defined that the goods will be delivered on truck and on site, without any limitation of traffic nor tolls to be considered. It is the client's duty to inform Milani S.r.l. on traffic limitations, tolls charges, limitation of traffic hours. Any extra cost due to these events will be charged to the client at cost.

In the case events like wrong address, diverted delivery, stock of goods occur, Milani S.r.l. will charge the client at cost.

Payments

The method of payment that is established by the "sales committee" and accepted by us, can not be altered, unless authorized by writing. Only payments made to our agency, or occasionally to an entity authorized by us in writing, are held as valid. Milani S.r.l. reserves the right of ownership for the merchandise supplied until the bill is paid in full (art. 1523 c.c. Italian Law). Delays in the settling of due payment result in the cancellation of the consignment to be made, and the right for Milani S.r.l. to issue a draft on demand for the balance due and charge for late fees. If delivery of the goods described in the contract will be carried out on multiple occasions, for each delivery a regular invoice will be issued with the date of payment as for the contract.

Modifications

Milani S.r.l. holds the right to change and improve at any time its products on technical and dimensional aspects, without altering the functionnality nor the basic aspect of the models.

Claims

When receptioning the goods, the Client needs to check the whole integrity of the packaging and product in order to verify the compliance of the goods. Any claim shall need to follow the instruction as for our Warranty terms.

In case you suspect a damage due to transportation, claims shall be communicated to Milani within 7 days from the date of reception, otherwise we cannot assume that the damage is related to the transportation.
We warmly suggest you to accept with conditional signing when receiving the deliveries if you are dubious about a damage, and summarily mention the problem (ex. missing parcel/s; damaged box; [...]), this will be the only way to be protected against potential damages or defects due to the mishandling during transport. And last but not least, if you have not received a shipment on the scheduled day, please contact us immediately.

If production defects arise, claims shall be communicated to Milani S.r.l. within 7 days from the date of reception of the goods. beyond that date no claim shall be accepted.

In any case, no claim exempts the Client to interrupt his obligations of payments.

Assembling

Assembling costs are the customer's responsability.

Disputes

All the obligations and disputes of this sales contract fall under the jurisdiction of the court of Treviso.

Important information – Options

Order execution

Clients are kindly asked to execute the orders in clear and evident way, specifying name and code of the article, finishing, delivery address, contact person, access limitations (if any), opening hours/reception of the goods.

Lead times

The delivery date is specifyed in the last column of the order acknowledgement, The indicated date is usually the last available date of delivery, unless elsewise defined with the customer. Milani S.r.l. doesn't take any responsability for delays due to events beyond the control of Milani S.r.l.

Samples

Milani S.r.l. promotes its products by offering to its partners special deals on samples, which will be offered in cat. TS2 or TS3 and for one single item per model.

Special deliveries / tailboard deliveries / porterage

Goods are delivered tail truck to the delivery address and in free and total access conditions to the delivery place.

Goods are delivered with standard lorreys non equipped with tail board lifts or transpallets. If requested and if possible, Milani S.r.l. offers tail board lift equipped trucks prior request to upcharge approval.

It is necessary that the client marks on the order any information about the goods delivery.

Packaging

The goods are packed in cartons or cellophane. In the case the client demands a different/better packaging in written, this will be charged at cost.

If Milani S.r.l. decides to use other types of packagings in order to grant the integrity of the goods during transport, these will be charged at cost.

Assembling

Assembling is at client's cost. The goods are shipped semi-assembled according to the environmental regulations, unless elsewise specified. In the case the client demands fully assembled products, the addition will be charged to the client at cost.

C.O.M. finishes

Milani S.r.l. offers its products upholstered in customer's Own Material. Milani S.r.l. holds in any case the right of approval based on the type of finishing. Required quantity depends on the type of finish, Milani S.r.l. customer care is at disposal to provide this information. Price base is same as TS2 finishes apart from leather finishes; for which the TS3 category shall be considered.

Milani S.r.l. is also available to provide on-demand finishes, for which we will provide a bespoke quote.

Color allowances

The colors indicated for all materials and leathers in the sample swatch are only samples, as it is impossible to ensure consistency of color from one batch to the next. For this reason Milani S.r.l. is not responsible in any way for the exact match of upholstery/leather between the original composition and the supplementary elements, whatever the lapse of time is.

Measurements, weight and volumes

Measurements, weights and volumes are referred to the model pictured in the price list. Different versions of the same model can come with different measurements, weights and volumes.

Warranty

Reserve on delivery note

We encourage you to carefully consider the notice on the delivery note, to secure the customer on the goods received: "Upon receipt of the goods, the Customer is required to sign the delivery note (DDT, CMR or other) submitted by the carrier with "UNCHECKED" (ACCEPTED, SUBJECT TO VERIFICATION), briefly specifying in writing any discrepancies in the number of packages and/or damage/ defects to the packaging. Moreover, the Customer is required to notify Milani s.r.l. of any discrepancies observed, providing evidence through photos and/or videos, within 7 working days from receipt of the goods". This will be the only way to be granted against potential damages or defects due to the mishandling during transport.

Claim module

Milani S.r.l. promotes the use of the Customer Claim Module for the communication of defects on purchased products. The Customer Claim Module is available on demand.

Components

Milani S.r.l. offers the sale of generic components for most of its products, which can be substituted on exhisting Milani products.

Milani S.r.l.'s warranty is 5 years for indoor products and 2 years for outdoor products, for a max 8 h daily use, 220 days per year.

Warranty is valid:

- Starting from the moment the defect is communicated to Milani S.r.l. and in any case within **20 days** after the reception of the goods.
- If the Client will provide Milani S.r.l. with full details of the purchased product (date of purchase, model, details) as well as the proof of delivery. The claim shall need to be sent to *customercare@sm-milani.com* with a precise description of the defect, including photos and videos in order to understand the origin of the defect.
- During **24 months** starting from the date of purchase for all mechanical parts subject to wear (castors, gas lifts, mechanisms, armrests).
- During **60 months** starting from the date of purchase on broken or defective components due to structural problems not referable to the Client's responsability.
- During **6 months** starting from the date of purchase for upholstering defects (cuts, rips…) that Milani S.r.l. claims as production defects.

Warranty is not valid:

- Incorrect assembly
- If the defects are imputed to the Client's wrong or inappropriate use.
- If the defects are imputable to an excessive use of the product.
- On natural wear & tear of the upholsterings and paddings.
- If the defects are caused by maintenance carried out by personnel who was not previously appointed by Milani S.r.l.
- If the defects are caused by the use of inappropriate cleaning products.

In case of product repair, the operation of the warranty with be evaluated by Milani S.r.l. technicians. If the defect is imputable to a misuse of the product, the repair cost will charged onto the Client.

Repairs can be either done through the shipment of the compliant component (if the defect is well defined), or through the recovery done by the one of Milani S.r.l.'s appointed forwarders.

Certifications

The company certifications allow us to sustain a coherent and organized growth, which aims at continuous improvement in effectiveness and efficiency. The company organization is constantly monitored through an Integrated Quality / Environment / Safety Management System, which in compliance with the rules based on RISK ASSESSMENT (risk analysis), allows the company to work in advance on solving problems, strengths and weaknesses of the organization itself (SWOT ANALYSIS).

The customer service is also completed by product certifications issued in compliance with the technical regulations of the sector, making use of specific tests issued by certified laboratories.

chairs

conference – visitor seating

A series of chairs distinguished by their versatility, designed for catering spaces (bars, cafeterias and dining halls), meeting areas, waiting areas and conference venues. Flexible and customisable, these models combine engineering, materials – plastic and metal, with leather or fabric upholstery – and colours to give the ultimate in comfort.

Product maintenance

The SpazioMilani products are made of iron with weather-resistant treatment.

Periodically clean the painted surface with a sponge or cloth using a mild detergent diluted in water, rinse and dry carefully.

To maintain the product's good condition for a long time, we recommend storing them in closed and dry places during the winter season.

Products exposed to high salinity environments (e.g., coastal areas) or high altitudes should be periodically cleaned, paying particular attention to the welding points.

Cleaning can be done using the same procedure described above.

Use spacers for storing individual elements to avoid scratches or accidental damage.

MILANI
